Help design dream home

Let loose your imagination and creativity and design your own "Dream Home." Landmark Designs, a nationally syndicated home design column, in partnership with the Observer & Eccentric, invites you to participate in the "The Dream Home Survey."
 Remember, the napkin you doodled on to show your spouse or friend what you would like to have in your "Dream Home?" Hope you saved it. This is your chance to have it count as part of the dream. You are the only one that knows the features you want in the home of your dreams.

There may be some practicality for you. If you are seriously considering building your own dream home, the results of the survey just might create your custom plan at a plan book cost. If the community's dream homes are close to yours, then the resale value of your house will be higher because of its popularity.
 The project should be fun so make it a family affair, even if you are far away from having your dream house come true. Other readers may share in your desires. The more information you give us, the more detailed our dream

home design will be. We encourage you to attach letters, sketches, pictures, and comments inspired by your imagination.
 Landmark Designs will compile the survey results and design a dream home. These plans will be published by this paper when the survey and designs are complete, in approximately six weeks.
 For a study kit of the Dream Home Survey (1996), send \$8 to Landmark Design, P.O. Box 2307, Eugene, or 97402 (Be sure to specify plan Dream Home Survey). For a collection of plan books featuring our most popular home plans, send \$20 to Landmark, or call 1-800-562-1151.

Vertical Glide helps organize

Cabinets are great places to store things. One of the main reasons people love them is because you can throw lots of things in them and then close the door! This highlights, however, an important element to consider when buying storage products: access and function are just as important as providing the storage space.
 Closet Maid, the Storage Authority, is capturing and maximizing the storage space inside cabinets. The Vertical Glide is a prime example. The product is a vertical wall of wire that pulls out of a cabinet for easy access. It is available with hanging baskets or looks for quick, practical storage of lids, sponges, grill equipment, hanging items and just about anything else you can imagine. The product is ideal for capturing unused cabinet space under the sink or in very narrow cabinets.
 Closet Maid has a complete line of storage products for the inside of your cabinet. There is the Upper Cabinet line of basket systems designed to capture the entire cabinet area from shelf to shelf.

Better Homes. Better Schools. Better Location. Better See.

Don't miss this prestigious enclave of luxurious homes located in the heart of Farmington Hills. Only 46 generous homesites tucked into the magnificent natural woodlands and gently rolling hills. Many accommodate premium walk-out levels. Three and four bedroom plans range from 2,500 to over 3,600 square feet and feature a choice of first or second floor master suites and two or three car garages. Children living here will attend Farmington Hills Schools, ranked among the highest in Michigan.
