## GRADUATION DAY

Graduation Day should be a time of celebration and special praise. When one receives a diploma, it signifies that this person, through discipline and study, has completed another phase of life. He or she is ready for the next stage, be it additional education or entering the work force. The person who has completed his training may display his diploma to signify that he is qualified to perform a service. However, it is not the diploma that keeps clients coming back, but the quality of service performed. Graduates should realize that the knowledge and skill they have learned is more important than the certificate. Likewise, a person's religious affiliation is not what pleases God, it's what's in the person's heart. Those who profess to love God should display this by their actions.
