THURSDAY, JULY 18,

Comedy: Despite the support of his clones (left to right) Three, Two and Four, Doug Kinney (Michael Keaton, center) still manages to hit rock bottom after getting dumped by his wife and his job in Columbia Pictures' "Multiplicity."

Try 'Multiplicity,' you'll like it post-college days: still single, for Multiplicity' has a problem we can all relace to he never seems to have enough time. To keep on to por I his job. To spend quality time with his family. To play an occasional round of golf. All this changes when a scientist gives him the opportunity to clone himself, not once but three tist gives him the opportunity to clone himself, not once but three tist gives him the opportunity to clone himself, not once but three tist gives him the opportunity to clone himself, not once but three tist gives him the opportunity to clone himself, not once but three tist gives him the opportunity to clone himself, not once but three tist gives him the opportunity to clone himself, not once but three tist gives him the opportunity to clone himself, not once but three tists gives him the opportunity to clone himself, not once but three tists gives him the opportunity to clone himself, not once but three tists gives him the opportunity to clone himself, not once but three tists gives him the opportunity to clone himself, not once but three tists gives him the opportunity to clone himself, not once but three tists gives him the opportunity to clone himself, not once but three tists gives him the opportunity to clone himself, not once but three tists gives him the opportunity to clone himself, not once but three tists gives him the opportunity to clone himself, not once but three tists gives him the opportunity to clone himself, not once but three tists gives him the opportunity to clone himself, not once but three tists gives him the opportunity to clone himself, not once but three tists gives him the opportunity to clone himself, not once but three tists gives him the opportunity to clone himself, not once but three tists gives him the opportunity to clone himself, not once but three tists gives himself, and the hala worked. The message here is basica that many set the least give the tist with the same, though all titter with the same, the but the same,

most mundane routine is a part of life's joys. It was a sort of "Twilight Zone" meets "It's a Wonderful Life" and the balance worked.

The message here is basically the same, though a little muddled. There are some moving moments, especially those involving MacDovel's confused wife. She thinks ahe's going nuts when she tries to pick up a conversation that she started earlier with one of the others.

Of course the special effects take much of the credit for the whole charade (a scene where the three clones shave in the same mirror is an especially elever piece of work). But it takes an actor as versatile as Keaton to make "Multiplicity" even remotely believable and, as it turns out, likable.

John Monaghan welcome your calls and comments. To leave him a voice mail message, calid (319) 953-9047 on a touchtone phone, mailbox 1866.

y,
