WORLD STONE & TILE PROFILE

Roy Straky & Paul Pandolfo have joined forces to create World Stone & Tile L.L.C. World Stone & Tile L.L.C. specializes in custom fabrication of Countertops, Dining Room Tables, Fireplaces, and Furniture using Natural Stone Products such as Granite, Marble, Limestone and Slate. We are proud to announce the Grand Opening of World Stone & Tile L.L.C.'s retail showroom and fabrication division.

The showroom will display full lines of granite, marble, limestone, slate, and silestone in sizes from 12" x 12" to 16" x 16", also full lines of quality imported ceramic tiles and porcelain tiles will be on display. Natural Stones, Silestone and High End Imported Ceramic Tile will be our main products. Time & Effort will be spent on promoting custom fabrication of countertops, dining room tables, fireplaces and furniture.

The fabrication division warehouses and inventories all granite, marble, and silestone slabs. Full production and fabrication on all custom projects, whether it be countertops, dining room tables, fireplaces, or furniture is done in the fabrication division. Utilizing all 7,000 square feet we are confident that, along with Paul Pandolfo, our custom fabricators will be able to produce any design or detail to which an architect, designer, or consumer might inquire about.
