

## A Reader Cures His Constipation—Try It Free

Simple way for any family to retain the good health of all its members

The editors of "Health Hints" and "Questions and Answers" have one question that is put to them more often than any other, and which strangely enough they find the most difficult to answer. That is "How can I cure my constipation?"

Dr. Calfee, an eminent specialist in diseases of the stomach, liver and bowels, has looked the whole field over, has practised the specialty for four years and is convinced that the ingredients of the following will be called Dr. Calfee's Syrup. Peppermint has the best claim to attention from constipated people.

Its success in the cure of stubborn constipation has done much to displace the use of salts, waters, strong

esthetics and such things. Syrup Peppermint by training the stomach and bowel muscles to again do their work naturally, and with tonic ingredients strengthening the nerves, brings about a cure.

Some of the strongest supporters of Dr. Calfee's Syrup are Mr. John Graveline of 998 Milwaukee Ave., Detroit, Mich., and Mr. J. A. Vernon, of Oklahoma City. Thousands of others have been helped to a cure by Dr. Calfee telling of gratifying results that can be obtained by any druggist at 5 cents and one dollar a bottle, or if you want to try it first a sample bottle can be obtained by writing the doctor.

Frank Hamilton's automobile was ahead of him and he kept whipping his horse with the determination to overtake that machine. Mr. Hamilton knew the fellow's condition and also knew if he stopped his car to arrest the speed of the horse that the machine would be wrecked. When Mr. Ward's was reached the horse turned into the yard and struck a post. Hayes was so seriously injured that he was taken to Detroit to a hospital Monday. His leg and hip were broken as well as his collar bone and one arm, besides other injuries.

H. U. uckle B. U. buckle  
Huckleberry pie."

This is the song of the huckleberry pickers at this time of the year. The swamps are said to be yielding the berries very satisfactorily.

A gentleman was heard to remark "tother day": "Oh, I prefer to wait a bit and purchase an aeroplane instead of an automobile."

—it won't be dusty for me flying." Well, maybe that is true so long as he keeps it in the air, but he might make it considerably dusty for "us folks" if he should happen to "ker flop" in the air and very inconsiderately try to wipe up the dust of the road. He would certainly land somewhere on this dusty mother earth.
