Remodel from page G12

article last week. Any contractor should be able to supply you with a minimum of three references.

11. What percentage of your business is repeat or referral business? This will give you a good indication about customer referrals and some claim up to 90 percent.

12. How many projects like mine have you completed in the past year? This will help you determine the contractor's familiarity with your type of project.

13. Will we need a permit for this project? Failure to obtain the necessary permits or to arrange obligatory inspections can be illegal. A qualified contractor will be conscious of the permit process and ensure that all permits have been obtained before initiating any work.

Next week we will tell you who the typical remodeler is and the types of

remodelers to avoid.
