LOCAL NEWS

Mrs. Mellwain's house on Grand River avenue is being painted.

South Lyon has a second home-coming reunion on August 10 and 11.

Mrs. Mellwain and Mrs. Buno made a trip to Port Huron Tuesday.

Miss Irene Lapham of Toronto, Ont., has been visiting friends here.

Misses Ida and Zaida Steele are visiting Grand Lodge and Lansing friends.

Miss Helen Service of Greenville arrived here Wednesday for a two weeks' visit with her aunt, Mrs. Dexter Riley.

Mr. and Mrs. W. H. Allyn of Detroit, accompanied by their two daughters spent Sunday with Mr. Allyn's brother, Frank.

Mrs. Mary Sprague, Miss Electa Chilson and Mrs. Dexter Riley visited Mrs. Adaline Green Thursday and Friday of last week.

A large willow tree belonging to Nelson Sisters was blown down Monday forenoon. It fell across the electric and telephone wires putting the service out of commission.

Orchards in Bloomfield township are said to be afflicted with San Jose scale and the "yellows." The commissioners have made an inspection and report the conditions alarming.

Mr. and Mrs. M. B. Pierce, Mr. and Mrs. F. H. Nichols and Mr. and Mrs. C. W. Wilber made up a party that were entertained at a Sunday dinner by Mr. and Mrs. C. W. Chamberlin.

Walter C. Peterson and family, Walter Calhoun and family and Walter Casey and family of Detroit, and J. A. B. Peterson, wife and daughter, of Farmington have been spending a week at Pearl Beach.

Among some of the new books recently added to the library are the following: The Firing Line, The Squaw Man, The Broad Highway, The Long Roll, That Printer of Udell's, Fair Margaret, Coniston and She Buildeth a House. Library afternoon Saturday, July 29.

That farms change owners during mid-summer is shown by the sale of ten acres at Farmington to A. J. Pickett for George Cross and \$8 acres to E. A. Murray for Mr. Cross; also ten acres near Redford for John Hoffman to A. F. McIntire. The above sales were by T. Hitchman of 212 Buhl block.

After being torn up for several weeks the Enterprise office is now in condition to properly transact business again. By the remodeling process fifty per cent more room has been added to the office and as considerable new material has also been added to the equipment the office is now in much better shape to do job printing than before.

Among the places that Fred Lee has wired for electric lights during the past week are Chamberlin's barber shop, Schroeder & Newcomb's meat market and George Rider's new house. As fast as they are wired they are inspected and are then ready for connecting up as soon as the company gets the line in here. Mr. Lee leaves the jobs all ready for business so that there need be no delay.

A number of Farmington citizens including several of the leading business men have said to the Record within the past week that the oiling of the streets in that village has proved a great success and that the whole population is practically unanimous in its favor. "Not for a thousand dollars would we go back to the old dust system," said one man and he practically voiced the expression of the whole town. "To say nothing about its great value in eliminating the dust, it is worth more than the cost to alone preserve the gravel on our streets," said another.—Northville Record.

Mr. and Mrs. McKay and daughter of Detroit were guests of Mr. and Mrs. Frank Allyn on Sunday.

Leon Green is excavating for a cellar under his residence.

Mrs. Henry Pauline and Mrs. Harry Newcomb visited their sister at Novi Wednesday.

John Tugger has been repairing the electric wires on Grand River Ave. this week. Owing to the wires being down the west end of town has been in darkness for several nights.

Mr. and Mrs. C. W. Wilber left Wednesday on a trip that will last for about two months. They will spend the time in the far west visiting friends and will probably take in Yellowstone Park and other points of interest.

Other orchards aside from the Bloomfield district may be affected the scale or yellows and it would be just as well for the farmers to take vigorous measures to get rid of the disease before the inspectors reach them as to wait until ordered to obey the law.

The attention of merchants is called to the new state law promulgated by the dairy and food department which makes it unlawful for dealers to expose goods for sale without proper sanitary protection against flies and dust, particularly referring to meats, fruit and vegetables. This law has attracted much attention throughout the state and there will be general efforts to enforce it. A penalty is attached for those who violate the law.

WATER WORKS NOW IS ISSUE

Continued from first page.
fourth of July, yet on Tuesday there was a pressure of 58 pounds and in an exhibition for the benefit of the visitors a stream was thrown that would have gone over any building in Farmington.

Just as soon as it is decided what would be best for the town in the way of a water system it seems that it would be advisable to at once put the matter up to the people and let them decide first whether they want water or not and if they do then let the thing be started as soon as possible.

Nearly everybody admits the need of it and realizes that it must come within a short time anyway so why not have the benefits as soon as may be and enjoy the comforts that it will bring.

Maccabees Must Raise Rates

This paper is in receipt of a long communication from Great Commander Lovelace of the Knights of the Modern Maccabees regarding the necessity of re-adjusting the rates of the order. The matter is to come before the convention to be held at Port Huron in September and will quite likely awaken considerable interest among the members of the order.

Every thinking man knew years ago that the plan on which the order was working was wrong and could not last only until the early members reached old age, when the losses would naturally swamp the organization.

The officers frankly state that something must be done at once. It will be very likely result in a raise in rates that will be a hardship on those members who have got to the age where they are not able to earn anything.

The officers invite a discussion of the plans for relief.

Remember the Picnic Wednesday

Don't forget the picnic next Wednesday, August 25d, in the grove back of the Junction. Fine list of sports: Foot races, obstacle races, tug of war, relay races, potato races, etc., etc., and big base ball match, Farmington vs. Redford. Picnic is given under the auspices of Farmington M. E. Sunday-school. We are looking for a big day. Are you coming?

FARMINGTON WON IN 12

Continued from first page

Lamb, 1st base; Howard Warner, 2nd base; Adolph Nacker, 3rd base, Harley Warner, shortstop; Dr. Miller, left field; E. Pierce, center field; E. Gullen, right field.

Farmington did the first scoring, gathering four runs before Franklin settled down to real business. Soon Franklin retaliated by pilfering four, tying the score, doing all this on the strength of one screwy hit. Farmington was just a little too sure of the victory at first. From that time on until the close of the game in the 11th inning there was no more holidaying done by either team, neither team allowing the other a single added score until Pierce drove out a three bagger, after two were out in the last of the 11th, and then stole home when the catcher had to pull off the plate to catch a wild heave from 2nd base. This broke the tie, giving Farmington the game, score 5 to 4.

Someone said Dr. Miller had two hits (one a two bagger) besides two clean "put-outs" to his credit. We looked up the official score book and found every word of it was true.

Adolph Nacker, of Cook & Co.'s, was another "come back" in Saturday's game. He played a regular Moriarty game at 3rd, while Harley Warner really looked like Donie Bush at short, making some beautiful pick-ups. Howard at 2nd played a perfect game, aiding in two splendid double plays, besides having two other "put outs" to his credit. Gullen at right field grabbed the only chance he had and played it in grand style, getting a man at second, besides having two hits to his credit. Pierce played his field in old time style getting everybody in his way. Lamb played an errorless game at first Johnson knocked out the only home run of the game. Maas and Nacker secured a single each, Harley and the doctor a two bagger each, besides an extra single each, Pierce a three bagger, Gullen, Lamb and Howard each a couple of singles. There were five errors chalked up against Farmington, four overthrows and a dropped ball.

Boat Races at the Lakes

C. W. Wilber was over to the lakes Saturday and took part in the boat races.

A series of preliminary races are being held between the old Zenda and the new craft called the Big Four to decide which one shall endeavor to take the cup away from the Keewaydin which is now the champion.

The Big Four is a new boat, built purposely to win the cup yet in the first of the preliminary races she lost to the Zenda by three minutes.

School of Instruction

The Masons are to have a school of instruction here this Friday night and the Northville lodge will be here in force. A six o'clock dinner will be served by the Eastern Stars.

Watch Your Kidneys

Their action controls your health. Read what Foley Kidney Pills have done for your neighbor, Clyde H. Fuller, 406 River St., Cadillac, Mich., says: "For the past two years I have been suffering with severe backaches and dizzy headaches, so that at times my eyes were blurred; The kidney action was painful and troublesome and hearing of Foley Kidney Pills I decided to try them. After using them for a short time, I was entirely cured of the backaches; my kidney action became normal and regular; Foley Kidney Pills cured me and I highly recommend them to anyone suffering in a like manner." Sold by T. H. McGee.

Electric Wiring—I am prepared to do all house wiring and respectfully solicit work in that line. My work guaranteed to pass state inspection. FRANK S. LEE, Redford, Mich.

BIDS WANTED

For a Concrete Arch Bridge, to be built east of Erwin Bros., near the town line in the township of Farmington.

The bridge to have a 14 foot span, seven feet in height, with 16 foot wide wings, north eight feet, south six feet. Foundation to be three feet thick and extend to solid foundation or not less than two feet below bed of stream. The Arch to be three feet at the base and ten inches at the top and to have a balustrade of eight inches to hold the gravel and two concrete rails with four posts, the wings to be two feet at the base and battered to one foot at the top and deep enough to be below the frost.

The bridge to be reinforced with 3-4 inch corrugated steel bars, not more than one foot apart lengthwise and crosswise wings to be tied to the abutments with corrugated bars every foot in height. The concrete to be composed of the best portland cement and clean, sharp gravel in the proportion of four to one in the arch and five to one in the abutments and guaranteed to carry fifteen tons in weight.

Bids will be received Aug. 1st. 1911 at 9 a. m. at the town hall, Farmington. The board reserves the right to reject any or all bids.

H. A. Schroeder,
Township Clerk.

For Sale—Five pigs.
Sarah Courter.

Special in 30x56 rugs at 89c at E. C. Grace's.

For Sale—A Pilot acetylene lighting machine and fixtures. Cheap. Inquire of Dr. E. F. Holcomb. 391f

GIRL WANTED—At the Owen House. Apply at once. Good wages.

STATE OF MICHIGAN—In the Probate Court for the County of Oakland. At a session of said court, held at the probate office in the City of Pontiac, in said county, on the 5th day of July A. D. 1911.

Present: Hon. Kiebler P. Rockwell, Judge of Probate.

In the matter of the estate of William H. Adams

deceased.
Mark B. Armstrong, administrator of said estate, having filed in said court a petition praying for the examination and allowance of his final account, determination of the legal heirs of said deceased, and distribution of said estate:

It is ordered, that the 5th day of August A. D. 1911, at nine o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is further ordered, that public notice thereof be given by publication of a copy of this order for three successive weeks previous to said day of hearing in the Farmington Enterprise, a newspaper printed and circulated in said county.

Kiebler P. Rockwell,
Judge of Probate
Judson A. Freudenburgh,
Probate Clerk.

FIRST COFFEE IN ENGLAND.

It was at Balliol college, Oxford, that coffee was first drunk in England, and there not by an Englishman, but by an embryo Greek bishop, John Evelyn writes in his diary: "These came in my time to the college one Nathaniel Conopios out of Greece, who, returning many years after, was made bishop of Smyrna. He was the first I ever saw drink coffee, which custom came not into England until thirty years after." Evelyn apparently considered the coming of coffee to have been one of the most important episodes of his undergraduate days.

ARITHMETICALLY SPEAKING.

Johnny had just finished scratching a sun in the surface of the new sidewalk when his father arrived on the scene.

"What is this I see in the cement?" demanded the irate parent.

"Those, father," replied the youth "are concrete figures."

DISAPPOINTED.

Conversement—Oh, I'm quite better now, thank you.

Visitor—Quite better! After my walking over four miles to see you.—M. A. P.
