

Protect antenna

Molded of fiberglass and granite dust and designed to fit over an 18 or 24 inch satellite receiver, the new boulder size Rock-On dish cover is overcoming many people's reluctance to indulge in satellite television's wide programming choices and interactive opportunities.

Advantages:

- Dishes can be positioned in restricted neighborhoods where they are not visible from the street or from a neighbor's home or driveway.

- Families whose pets and small children could not damage or dismantle any expensive piece of electronic equipment in their yards.

- Families whose active backyard sports won't put the dish at risk.

- Dishes won't create a hazard if positioned where reception would be best, like near an entry or pool.

- Renters don't need to attach anything to their building.

- Aesthetic sensibilities are footed.

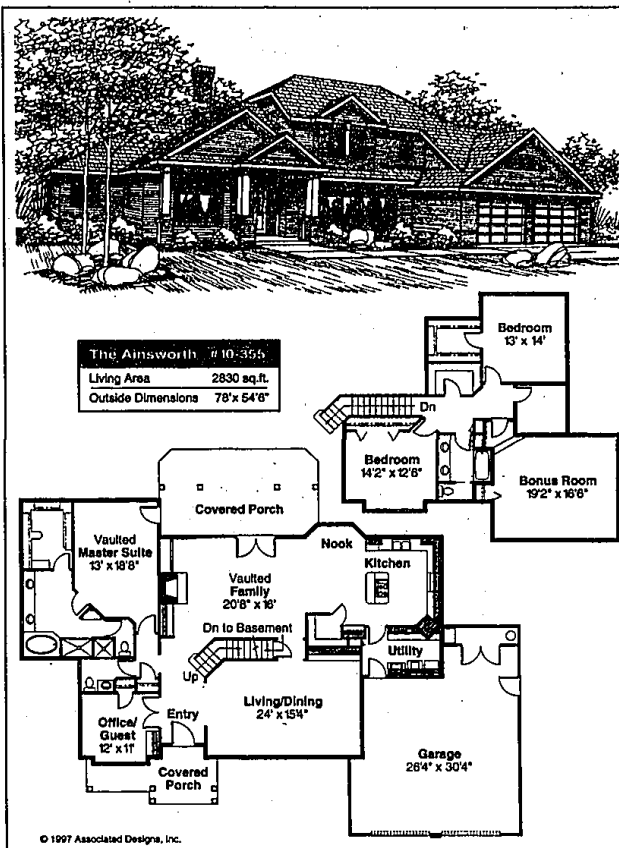

- Vandals are discouraged.

- Ice build-up is avoided.

If your neighbors suddenly begin upgrading their yards with handsome landscape quality boulders, Chosewood adds, ask yourself if they are enjoying satellite programming you have only dreamed about.

While looking and feeling like a two-ton granite boulder, the 27-pound Rock-On can be transported easily in most cars or ordered from many satellite receiver suppliers.

Information about Rock-On satellite dish covers is available from Rock-On, Inc., 4928 Abshire Blvd., Belleview, FL 34420, or call 1-800-543-5102.

Master suite is alone on the 1st floor

Multiple roof lines, classical columns and raised masonry detailing give strong curb appeal to the Ainsworth. This spacious contemporary plan boasts 2,800 square feet of living area plus a skylit bonus room over the garage.

People who like to entertain will surely appreciate this home. The combination living room and dining room is bright and open, with natural light spilling in through four large windows. Arches provide access from both the entry and the huge vaulted family room.

Windows fill most of the rear wall. A fireplace flanked by bookshelves and an entertainment center anchors the far end of the family room, while the kitchen is at the opposite end. Two of the four rear windows open onto a partially covered patio, studded with skylights.

A bayed nook expands the comfortably large kitchen, which is totally open to the family room. Storage space, counter space, desk, built-ins—this kitchen's got it all. Five levels of shelving wrap around two sides of a huge walk-in

pantry, and you'll find even more storage in the large utility room that connects to the garage.

The plush master suite has a vaulted ceiling, oversized shower, twin lava, a walk-in closet and a luxurious soaking tub. Glass blocks soften and diffuse the natural light.

Another room in the Ainsworth faces the street. This could be outfitted as a home office, den, or guest room. Two large bedrooms are upstairs, along with a bathroom, a storage closet, and a large bonus room that could be left unfinished until needed. One of the bedrooms has a walk-in closet.

For a review plan, including scaled floor plans, elevations, section and artist's conception, send \$15 to Associated Designs, 1100 Jacobs Dr., Eugene, Ore. 97402. Please specify the Ainsworth 10-355 and include a return address when ordering. A catalog featuring over 170 home plans is available for \$12. For more information call (800) 634-0123.
