# MILD, GENTLE LAXATIVE FOR WOMEN GIVEN FREE

So many of the ills of women are due to habitual constipation, probably because of their false modesty on the subject, that their attention cannot be too strongly called to the importance of keeping the bowels open. It is always important to do that, regardless of the sex, but it is especially important in women.

From the time the girl begins to menstruate until menstruation ceases she has always vastly better prospects of coming through healthy if she watches her bowel movements. If you find yourself constipated, with bad breath, pimply complexion, headaches, belching gas and other symptoms of indigestion and constipation, take a small dose of Dr. Caldwell's Syrup Pepsin. It is woman's favorite laxative. You will find that you can do away with salts, strong cathartics, etc., which are entirely unsuited to woman's requirements.

Mrs. Katherine Haberstroh of McKees Rocks, Pa., and Mrs. A. E. Herrick of Wheeler, Mich., who was almost paralyzed in her stomach and bowels, are now cured by the use of this remedy. A free sample bottle can be obtained by addressing Dr. Caldwell, and after you are convinced of its merits buy it of your druggist at fifty cents and one dollar a bottle.

For the free sample address Dr. W. B. Caldwell, 402 Caldwell building, Monticello, Ill.

# STOVE BUYER WARNINGS

GARLAND STOVES AND RANGES — The World's Best

**Facts No 1**

**Caution!**

Garland Stoves and Ranges always bear the above trade-mark of highest quality. Are sold only by leading dealers everywhere. Are never sold by Mail-Order or Catalog houses. Are in over 4,000,000 homes. Have been the largest-selling and greatest satisfaction-giving stoves and ranges during 40 years. Always insist on this trade-mark and get Garlands at your dealer's.

AS AGENTS of the largest makers of stoves and ranges in the world, we have decided to place the stove buyers of this country in possession of certain facts on the "mail-order" stove and range situation, which will enable every buyer to safeguard his interests *in advance of making a purchase.* We take this step because we feel that we owe a duty to the public which for 40 years has favored Garland Stoves and Ranges with overwhelming evidence of its approval.

—For today you will find Garland Stoves and Ranges in over 4,000,000 homes.

Here, in brief, are the facts:

The trade-mark name, "*Garland*," on a stove or range, because of the *quality* and *service* which it represents, has become enormously valuable. Its value is estimated at millions of dollars. Behind it are 40 years of study, invention, experience, skilled workmanship and conscientious effort.

In recent years, some concerns, selling stoves and ranges by "mail order," have sought to trade on the Garland reputation by offering cheap stoves at cheap prices on the *representation that such goods are "as good as Garlands."* The time has come when the protection of stove buyers demands that we brand these claims as absolutely false.

The purpose of this announcement is to point out to the stove buyer the *pitfalls* of the *system* of "mail-order" stove dealing and the saf[illegible] convenience, satisfaction and greater economy of buying stoves and ranges *from established local dealers.*

## Buy Your Stoves at Home

### It Pays in Satisfaction, Safety, Convenience and Economy

**"Mail Order" Stoves and Ranges Not Shipped Set Up**

"Mail-order" stoves are not shipped set up and ready for service.

If shipped all set up, the legs and other [illegible] would be liable to be smashed [illegible]

If you have ever wa[illegible] for it at the depot, or [illegible] out of the crate, putting it together, connecting it, waiting a couple of w[illegible] before being able to [illegible] the performance.

When you buy a Garland stove or range it comes to you *set up, blacked* and *ready for service* and guaranteed [illegible] ing, no delay, no trouble.

**Not Easy to Return "Mail Order" Stoves**

When you get a "mail order" stove, you are *almost bound to keep it,* even though it is not satisfactory. What if you say, "the mail-order" stove house offers to take back the stove and refund my money if the stove is not perfectly satisfactory?"

But there are a good many reasons why the return to the manufactory of stoves purchased by mail are never returned. One great reason is the endless amount of "red tape" connected with the return of such stoves.

If you are ever caught with an unsatisfactory stove, the chances are that your patience will become exhausted and you will decide to make the best of a bad bargain.

**See the Stove First**

When you order from a "mail-order" stove concern you have paid for the stove in advance—it's yours—you don't always easy to sell it back. If they agree to take it back, the trou[illegible] taking it apart, crating it, and hauling it back to the depot is so great that it will many times pr[illegible] you from returning it.

When you buy a Garland Stove or Range you avoid all this trouble, expense and loss. You know exactly what you are buying and there is no possible chance of dissatisfaction. We are not 500 or 1,000 miles away, but close at hand, to guarantee perfect satisfaction.

**Excess Freight in "Mail-Order Stove Buying"**

Those who buy single stoves and ranges by mail, risk paying the *highest* freight rate. We buy in *carload lots.* But whether you buy by mail or from us, *you always pay the same low freight price* of a "mail-order" stove or range is *[illegible] price plus the freight.*

Just check a pin in that statement, and save yourself the shock of an unexpected freight bill. Buy from us and all the money will go into *stove value,* for *we save you all excess freight.*

**30 Days' Free Trial vs. Permanent Satisfaction**

The "30 Days' Free Trial" proposition is the favorite method of some "mail-order" stove concerns to get people to buy stoves and ranges.

But they gladly take back [illegible] fact that the purchaser *pay[illegible]* indemnity.

Then they agree to take back the goods and refund your money at the end of the 30 days' free trial if the stove is not as represented. They [illegible] *at the store in your [illegible]* town, and one man in a thousand will take the trouble to repack and reship an unsatisfactory stove and unwind the "red tape" that it takes to get this matter in shape.

Buy at home. We guarantee satisfaction, not merely for 30 days, but *for the entire life of the stove.*

**Garland Stoves and Ranges Cash or Credit**

We gladly extend credit to responsible and reliable people, without asking you to [illegible] notes or requiring the endorsement of friends.

Our terms are ten times more liberal than those offered by "mail-order" stove concerns and we don't ask you to give your family history, sign notes, pay interest and refer to your friends.

**About Delayed Shipments**

Another great advantage about buying stoves and ranges at home is that you can get *immediate delivery.* If you order from a "mail-order" stove concern, there is no telling how long it will be before the stove reaches you. Single shipments are subject to long delays and frequently go astray. The risk of delays, damage or loss in transit is unavoidable.

Why assume that risk?

**About Premiums Like Cheap Rocking Chairs**

Some manufacturers are trying to push their stoves, even through dealers, by giving "free" rocking chairs or premiums with their stoves and ranges.

It is reasonable to suppose that there is something lacking in a stove or range that cannot be sold on merit, but whose sale depends upon "premium" bait, such as rocking chairs, etc., etc. If the rocking chair is worth *real* money, the manufacturer or dealer would not be apt to *sell it cheap.*

If the stove or range is worth its price, it needs no premium to sell it.

The man who cannot [illegible] remember for nothing is only deceiving himself.

When you get a premium with a stove *the cost of the premium is invariably included in the price of the stove.*

Buy Garland stoves and Ranges and get *full value for every dollar.*

Don't be misled by alluring schemes.

And to get full set values, dollar for dollar, be sure to see us before you absolutely decide to buy any stove or range at any price or on any terms.
