ONE KILLED AND MANY INJURED

REAR-END COLLISION NEAR VOLNEY SMITHS

Second Section Changing Crews When Third Section Crashed Into it. Company Blames Motorman

The Orchard Lake division of D. U. R. got its bumps Sunday night when there was a rear-end collision on the track near Volney Smith's, about half way between Farmington and Redford. The crash took place right on the track where it crosses from one side of the road to the other side and was caused by the third car of the eight o'clock run, bound east, running into the second car while it was standing still on the track. Car number two had stopped when it met the west bound car to change crews, according to orders. The following, in charge of Conductor Fred Stoney and Motorman C and Paulger, was going along at the usual speed, but the motorman was unable to see the car ahead because of the glare of the headlights of the west bound car.

There was a terrific crash although Paulger had shut off his power and applied the air before the car struck. Both cars were filled with passengers as there were crowds returning to the city from the lakes. Of course the lights were extinguished and the crowds were in immediate panic. Many were slightly bruised and large numbers were cut by breaking glass, but one man who stood with four others on the back platform of the front car was caught, when the others jumped, and his body

was badly crushed. It was some time before the unconscious form could be extricated from the mass of broken timbers and then he was given every attention, but died the next morning at Harper hospital in Detroit without regaining consciousness.

For a time it was impossible to learn the man's name but finally he was identified as Jacob Beskey, who lived near Pontiac where he worked on a farm. A wife and six children are left in desolate circumstances.

We understand that the Company place the blame on Paulger, but the sympathy of the public is with him. However, he loses his job.

GET DEER LICENSES IN FARMINGTON

County Clerk will be Here for that Purpose on Oct. 26.

County Clerk F. B. Babcock has made arrangements to be in the following places during the latter part of the month to issue deer licenses to hunters who desire them: Rochester, Oct. 21, from 6 to 8 o'clock, at the Detroit House; Oxford, Oct. 23, from 5 until 7 o'clock at the Oakland House; Orion Oct. 25, from 8 to 9 o'clock, at the Richards hotel; Farmington, Oct. 26, from 7 to 8 o'clock, at the Oves House; Birmingham, Oct. 25, from 7 to 8:30, at Jim's Tavern; Holly, Oct. 27, from 7 to 7:30 at the Holly Herald office; at Milford, Oct. 28, from 7 to 9 o'clock, at Hotel Central; South Lyon in afternoon Oct. 24, at John Challis' store.

PROMINENT YOUNG COUPLE MARRIED

Earl K. Gullen and Lillian Gilde-meister Surprise their Most Intimate Friends

Another young couple of Farmington took it into their heads to get married and hied to Detroit last Saturday and had the matrimonial knot tied and then notified their friends. They are among the most estimable young people of the village, Earl K. Gullen and Lillian Gilde-meister.

Mr. Gullen is teaching the Bell Branch school and the young couple will go to keeping house at that place.

The whole community unite in best wishes for a long and happy married life for this worthy pair.

A Fine Herd of Holstein Cattle

A herd of fine Holstein cattle, 33 in number, were driven through this place Monday on the way to the state fair grounds where they were entered in the Michigan Breeders' Consignment sale, which took place on Thursday. Eighteen head were owned by John Johnson of Farmington and 15 head by Ed. Starkweather of Northville.

They Like Our Gravel Road

Several automobile loads of Supervisors from Macomb county paid a visit to Farmington Tuesday to inspect the gravel road which is receiving so much attention. They contemplate building some good roads and came over to see the best gravel road in Michigan.

Baptist Services Next Sunday

Services at the Farmington Baptist church next Sunday will begin at 10:30. B. J. Klump will speak upon the subject, "The one thing lacking." There will be a song service for ten or fifteen minutes before the service, conducted by W. E. Prouse, singing evangelist. Everybody invited. Sunday school at the close of the morning service.

I. F. Schroeder has installed another meat market at Plymouth.

FARMING ON A LARGE SCALE

BIG SMITH & WARNER FARM IN THE THUMB DISTRICT

1100 Acres, with 600 Under Cultivation. Large Cheese Factory on the Place

In the October number of the Gleaner we find an article written by N. A. Clapp giving a very good description of the big farm owned by Congressman Sam Smith of Pontiac and ex Governor Warner of Farmington.

The farm is located up in the Thumb district and is named "Elmhurst." There are 1100 acres in the farm, six hundred being cleared and cropped. The farm, which is well managed by B. C. Banfield in a very systematic manner, this season had 225 acres of hay, 60 acres of corn, 100 acres of oats, 30 acres of potatoes and 80 acres of sugar beets. 175 head of Holstein cattle, all ages, 100 Oxford Down sheep and 200 hogs comprise the stock kept on the place. The owners are now planning to establish a herd of pure bred Berkshires.

The farm is well supplied with all the necessary buildings, including, besides the large farm house, seven tenant cottages for the help on the farm and a large number of stock and hay barns as well as hog houses and other smaller buildings. The numerous buildings have the appearance of a small village. One barn 84x48, another 60x40 and three silos 36 feet high by 18 feet in diameter gives something of an idea of the magnitude of the business carried on.

The combined storage capacity of the silos is 600 tons, which indicates that the owners of Elmhurst appreciate the value of silage for feeding. There are still other barns aside from those mentioned and they include horse barns as well as hay and stock barns. There are also large granaries. The hog houses are arranged with a view to keeping the animals in colonies with large pastures for each.

Much attention is given to the raising of stock and the animals are selected and raised in a practical manner and in relation to their real merit. A milking machine is used whereby ten cows are milked at a time and in about ten minutes so that a large herd can be milked in an hour's time. The milk raised on the farm, along with a large quantity raised in that section by other farmers, is worked up into cheese in a factory on the place.

Sugar beet raising is a feature of farm work and the crop is cared for by families of Germans who do all the work. The beet fields excite a great deal of comment because they are so well cared for and so thrifty.

While the farm is very productive and profitable the owners, as yet, derive no dividends for everything is put back on the place in the way of further improvements. However the increase in the value of the land is no small item, for when Gov. Warner took an interest in the project eight years ago land in that section was worth only \$25 to \$30 an acre while now it is away up to \$100 and more.

The Ladies' Aid will meet next week Thursday with Mrs. Frank Allyn.

At the regular meeting of Farmington chapter, No. 239, O. E. S., which was held Friday evening, Mrs. Mary B. Lytle was elected and installed secretary for the ensuing year.

MEDICINE APT TO BE NEEDED

should always be kept on hand for emergencies. No house should be without a medicine cabinet, which should be well stocked with OUR HOUSEHOLD REMEDIES, PLASTERS, ANTISEPTIC COTTON, ETC.

We shall be glad to make you up a list of things you ought to have, and to supply them. A remedy when needed will save much suffering and much expense.

T. H. MCGEE, DRUGGIST FARMINGTON.

THE BANK ACCOUNT

- Is the first forward step toward success and fortune.
- Protects your family in emergencies.
- Educates your children.
- Makes you independent.
- Gives you a standing in the community.
- Is a valuable aid in any enterprise undertaken anywhere by anybody under any conditions.

If you don't have a bank account, let us suggest that you start one with us immediately.

AMOS-OTIS

Save Your Carpets

One of the facts that has brought

BISSELL'S

"Cyclo" BALL BEARING Carpet Sweeper

into so great favor is the actual saving they accomplish, making carpets wear more than twice as long. This saving of carpets is easily explained, as the rapidly revolving brush searches into the piles of the carpet, lifting dirt and dust out, depositing it in the pans within the sweeper case. If this dirt and sand is allowed to stay in the carpet or is ground down into it by a broom, it acts as a grindstone, cutting the fibers of the carpet at each move on the carpet.

Don't think the corn broom is more economical, as this would be a great mistake. One BISSELL sweeper will last longer than fifty brooms, which would cost from \$10.00 to \$15.00.

Price \$2.75 to \$6.00
