Even our stripped-down model is impressive.

It's a thing of beauty. Look at all those structural welds. And aren't those "crumple zones" both front and rear? Indeed they are. But if you think the safety provided by a Saturn spaceframe is something to behold, wait until you see our car with its standard Reduced Force Air Bags and, oh yeah, its daytime running lamps. Don't worry, we made sure to include them on even our most affordable model.
