berries—a soil that warms up easily and yet will hold sufficient moisture for the crop.

Strawberries require a rich soil, heace it is well to thoroughly manure the land that is to be used for the crop in the fall, and plow under from four to six inches decp. In the spring disk, drag and smooth thoroughly. This gives a loose soil in which to set the plants, and a firm sub-soil to hold the moisture, and yet open enough to let the roots throughl. An orthern slops is to be preferred, as the plants do not start so early in the spring. They thus excaps the early frosts and they are not a carbit to early frosts and they are not a carbit early frosts and they are not savely to be dried out by the hot winds at fruiting time. Many growers, however, obtain good results on a soothers also an a soother of the control of the disadvantages.

Some growers prefer to fruit the bed only one season; in this case, as soon as it is through the disadvants and the spring of the disadvants and the spring of the spring of the disadvants and a soon as it is through the first produced on the land. If it is desired to

REVOLUTION IN MEXICO

First Big Battle is imminent at Tor

First Big Battle is imminent a Torcon This Week.

That the first big hattle of the revolution, possibly the deelding one, will be fought at Torcon during the present, week is the belief following receipt of dispatches that Tebel forces in Lauguna have occupied Gomez Palaclo and that Orozoo army will reach Terreon shortly. Gomez Palaclo and that Orozoo army will reach Terreon shortly. Gomez Palaclo and their way and rebels from the Lauguna district are arriving. Federal troops from Mexico City are burrying toward Torreon, though they have been delayed by burned bridges.

That the entire rebel and federal main forces will engage with 5,000 to 5,000 mm on a side is the general belief.

Records from 15 Delayance.

Records from 15 Princeton classes during 20 years preceding 1905, show that a surprisingly large percentage of graduates became lawyers.

of graduates became lawyers.

WHY SHOULD I USE CUTICURA SOAP?"

"There is nothing the matter with my skin, and I thought Cyticura Soap was only for skin tubbles." True it is for skin trouble at the street mission of the skin troubles. For more than a generation its delicate emollent and prophylactic properties have rendered it the standard for this purpose, while its extreme purity and refreshing fragrance give to it all the advantages of the best of tollet super. It is also invaluable in keeping the hands soft and white, the hard live and glossy, and the scalp free from dandruff and irritation.

I While its first cost is a few cents soap, it is prepared with such as soap, it is prepared with such as soap, it is prepared with such as soap, it is prepared with such cakes of other soap, and making its use, in practice, most economical. Cutturar Soap is sold by druggists and, dealers everywhere, but the trult of these claims may be demonstrated without cost by sending to "Cuttura," bept. L. Boston, for a liberal Kample cake, together with a thirty'two page book on the skin and hair.
