The Schick test will be given in six months. This test will certify these treatments which have been given during the past four weeks.

Our "Miss Graham" who at Christmas time became Mrs. Lon Rapson, is leaving us as soon as her successor Mrs. Wilkinson can get her work finished on a life certificate at Ypsilanti State Normal College. Mrs. Wilkinson comes to us with eleven years' teaching experience.

### Second and Third Grades

Mrs. Plunton

During this month we study the Dutch people and their country. The third grade are planning a village for the sand table.

Our second grade have read two readers and are ready for the third book.

Doris Tobin, a third grader, is leaving this week to live in Detroit. She will attend the Burgess School.

Lawrence Sharp is our new boy in second grade.

## THE CHALLENGER

Twice now... in 30 days... production has had to be increased

Essex the Challenger sweeps aside the barriers of price class. It challenges the performance, the style, the luxurious roomy comfort of any car at any price, on the basis that no other car gives you back so much for every dollar you put in.

A glance at its 76 advanced features reveals at once why Essex exceeds no car in its challenge. For point after point in fine car construction, performance and detail, brings you directly to costliest cars to find comparison.

With above 70 miles an hour top speed, Essex the Challenger, in thousands of demonstrations, is proving the endurance and ability to do 60 miles an hour all day long.

It is the finest, largest, roomiest, most brilliantly performing Essex ever built, and the price the lowest for which Essex ever sold—but little above the lowest priced car on the market.

That's why the acceptance of Essex the Challenger is the talk of motordom. Join the van of 1,000,000 Super-Six owners who are demonstrating its right and ability to challenge the best that motordom offers.

Hear the radio program of the  
"Hudson-Essex Challengers"  
every Friday evening
