LIGHT

A Sales-Assistant for the Merchant's Payroll

Light is an able assistant for the store-keeper's sales staff—it works at a very modest salary. But it must be allowed to show goods to proper advantage.

You may believe your store lighting is excellent. It is entirely a matter of measurement—in "foot candles." Two serious errors are common: dimness and glare—too little light at one point, too much at another. Both conditions are unfavorable to merchandising; both are easily corrected.

A telephone call will bring one of our illuminating engineers for an inspection of your lighting. This is part of our service.
