FARM BOYS WILL HAVE FIRST PROJECT MEETING

The first meetings of the season looking toward crops and poultry projects for farm boys will be held Friday and Saturday, March 15 and 16.

The meetings are being set up at this time to meet P. G. Lundin, assistant State Leader of Boys' and Girls' work, from the Agricultural College, who will attend all of these meetings to assist in the planning of the project program for the summer.

For the Southwest corner of the County the meeting will be held at the Wixom Baptist Church at 10 a. m. with dinner furnished by the ladies of the church at 12.

You can't retire at your first piece of good fortune; for the rain that makes the crops grow brings up the weeds, too.

This whole problem of what's wrong with youth would be solved if automobiles could talk.

Even jail has its bright side: the outside.

In times past, the backbreaking toil of heaving over a steaming tub, with wet soapy hands all day, was simply part of woman's work. It was a thing that could not be avoided. But washing for modern housewife is a different matter—and a far pleasanter one. Now, her labor is reduced to a few minutes of attention while an electric washer works speedily. The work of using a wringer is reduced to guiding the clothing through motor-driven rolls. With the up-to-date method of rubbering to pull and stretch fine pieces—no scrubbing to wear and tear good clothes—an electric washer dissolves the dirt.
