TAXPAYERS ARE ALL ELIGIBLE

MICHIGAN ASSOCIATION OF TAX-
PAYERS RESULTS FROM
CONFERENCE.

ALL WAS SERENE AND ACTION
OF MILD FORM.

Declaration of Principles Do Not
Leave Room for Any Sort of
Disputes to Arise.

With a membership of 150, including all of the delegates to the state tax conference, the Michigan Taxpayers' association was organized in the closing moments of the conference Thursday afternoon in the Detroit common council chamber. All taxpayers are eligible to membership and it is planned to make the association a strong force for good, just as similar organizations have become in New York and other states.

To remedy matters of taxation the state suggested is the Wisconsin law, which bases the average rate on the cash value of all property in the state as fixed by the tax commission instead of using the valuation on which taxes are actually paid as a basis. The Michigan state board of equalization last year clipped \$600,000,000 from the cash valuation as fixed by the tax commission. Had this \$600,000,000 been left in the budget for purposes of the average rate, the railroad tax rate would have been reduced from \$21 per \$100 to \$17, resulting in a decrease of at least half in the railroad tax levy.

The resolution of the conference on this point is as follows:

The Michigan tax commission is at this time spending approximately \$150,000 per year, the major portion of which goes for the support of a force of assessors in the various counties, in order to increase the assessed valuation of the general property of the state. In its last analysis, this work results in the reduction of the average rate of taxation, which is the rate applied to the property of public service corporations as fixed by the law. Sections considered ought to be given, both to the cost of this work and the results obtained, to the end that, if inquiry is made, an advisable, some better method may be adopted. In this connection consideration should be given to the method now prevailing in Wisconsin, in which the average is determined by the tax commission from the actual value of the entire property of the state, as determined by the board of equalization, and the value as locally assessed.

The resolutions similarly recommend a consideration of the advisability of fixing a lower minimum rate for assessment of personal credits.

Outside of these points the paragraphers engaged themselves to a general discussion of taxation, recommendations of economy and efficiency in administration of the law, etc. An instance of the care with which all questions of possible dispute were touched on, no mention was made of the corporate excess plan proposed this year by a special tax committee. The only part of the resolutions which could be construed as touching this subject was as follows:

With regard to the course to be pursued relative to proposals for radical changes in our tax law, the committee hereby suggests that proposals should be given very careful and fully considered consideration, neither ruler denouncing them on account of their novelty, nor hastily accepting them because of the same quality.

Weather Conditions Bad for Beans.
Lapeer county farmers declare that unless the weather conditions are more favorable their bean crop will be a total failure.

The second annual meeting of the National Rural Letter Carriers' association at Nashville, Tenn., the strongest competitor being Washington, D. C. Through the efforts of the National Rural Letter Carriers' association, a circulating exhibition of bronzes by American sculptors will be seen in eight American cities during the next eight months.

With at least one presidential candidate on the program, and although the campaign will be at its height, all state fair and caught Charles Allen, who they alleged was selling whisky to a farmer. After they made the house they searched the place and found 30 quarts of whisky in the stalls.

Declaring that the popular demand for Frederick C. Martindale as a candidate on the Republican ticket to succeed himself as secretary of state, has become too strong to be resisted, George L. Loeb also a candidate for the office, has announced he has withdrawn.

Cipriano Castro, president of Venezuela, though seriously sick and in exile, continues to worry the government of his native country at intervals by threats of revolution.

STATE BOARD TAKES ACTION

State Board of Corrections and Charities to Investigate Jackson Prison.

The state board of corrections and charities, of which Dr. Dayton Parker of Detroit is chairman, has taken action as the result of reports, jogging wares and military rule at the Michigan state prison in Jackson. The board will meet in the near future to investigate the situation and recommend to the governor such action as it deems necessary to remedy the conditions prevailing at the institution.

Dr. Parker said that he is not yet certain when the board will hold its meeting, and he intimated also that it will recommend to the board that it go on record in favor of restoring corporal punishment in the prisons of the state in cases where convicts are incorrigible.

The board of corrections and charities has no power in the matter of ordering changes made at the prison, but will supply all orders and recommendations to the governor. Mr. T. Murray, secretary of the board, has requested Chairman Parker to call a meeting for that purpose.

NOTES BY TELEGRAPH

The milling plant of the Berger-Crittenden company was destroyed by fire in Milwaukee. The loss is \$250,000.

A movement has just been started by Rev. Walter J. Shanley, pastor of St. Peter's church in Danbury, Conn., cutting out the custom of sending flowers to funerals.

According to State Bacteriologist Holm and City Sanitary Inspector Hunter, Lansing news for period of 10 days and to take part in the naval review at New York next month is offered to sailors by government. This is said to be the first time in the history of the navy that citizens have been allowed to become bona fide members of a battleship crew without enlisting for a term of years.

The circular letter sent out by the navy department for 1,000 men for the 10-day period. The principal reason for the demand for these short term enlistments is that the ships are only skeleton crews and must have more men to get to New York.

Erna Rust Celebrates 50th Birthday.
Erna Rust, who for the last 53 years has resided at Saginaw, will celebrate his eightieth birthday anniversary Tuesday. Mr. Rust's career has been a very eventful one, having been a marine engineer to a man of wealth through the lumber industry. He has been a great benefactor of the city, which he presented to the city, when completed, promises to rival Belle Isle, the people's pride of Detroit.

SOCIALISTS STATE CONVENTION AT FLINT

PASS RESOLUTIONS CALLING ON
OSBORN TO INVESTIGATE CON-
DITIONS AT JACKSON PRISON.

PASSING OF RESOLUTION GREET-
ED WITH CHEERING.

Select Full Ticket and Set President
by Naming Two Women
as Presidential
Electors.

The state convention of Socialists at Flint, after a preamble review of the developments at Jackson prison, adopted resolutions demanding that Gov. Chase S. Osborn and the prison board of control investigate the conditions leading up to the recent disturbance at the prison, the whipping of prisoners; that responsibility be fixed and guilty ones punished—meaning prison officials guilty of causing whippings.

In addition to placing candidates on the state ticket the Socialists set by a resolution that it be believed, in naming two women for presidential electors. The women are Mrs. Ida Kummerfeldt of Detroit and Alice McCallister of Lansing.

The convention was marked by a large number of women in the galleries and sprinkled throughout the hall. Announcement was on the program when W. T. Curry, a molder from Kalamazoo, who was unable to do as he preferred in fixing the presidential slate, dramatically shouted his dissatisfaction, tore up his credentials, threw them into a couple of chairs and the convention was the "steam roller" variety and left the building for his home in the Celery City.

Plenty of Water for Panama Canal.

The engineers' calculations as to the sufficiency of the water supply in the Panama canal have been amply vindicated by the figures just reported from the isthmus. The great lake of Gatun, which is being created by the dam at that point, during the worst of the drought, has accumulated just 5,740,000 feet of water. During this period the water level of the lake rose three feet.

Every time a ship is locked through the canal five and a half million cubic feet of water must pass and when the lake is full the locks 100 times daily, which is at least twice as fast as the ships can pass. When the surface of Gatun is 50 feet above mean high water, the water just flowing over the crest of the dam, it will contain the enormous amount of 125,500,000 cubic feet of water.

Special Sailors for Navy Review.

An opportunity to be a sailor in the United States navy for a period of 10 days and to take part in the naval review at New York next month is offered to sailors by government. REFUSES TO HELP DETROIT.

Gov. Osborn Refuses to Call Grand Jury to Investigate Graft Cases.

Appealing to "the highest power of the state for assistance in getting large and bringing to speedy justice the plunderband that has made Detroit's name a by-word, Mayor William B. Thompson, of Detroit, made a fruitless journey to Lansing.

Governor Osborn, after hearing one of the most severe arraignments of a prosecuting officer ever delivered in the state capitol, decided that Prosecuting Attorney Hugh Shepherd had not yet reached a point where his actions called for the interference of the state. The governor commended in warm terms the actions of Mayor Thompson in pushing investigations into graft; in lending his personal and official strength to the task of cleaning up civic rotteness.

The Pennsylvania railroad has issued an order restricting trains on all points of the road from exceeding 70 miles an hour.
