OVER A HALF MILLION CHEVROLET SIXES PUT ON ROAD SINCE JAN. 1

Evidence of the wide-spread popularity of the new six cylinder Chevrolet was revealed in an announcement by R. H. Grant, vice-president of the Chevrolet Motor Company in charge of sales, that more than a half million of the new cars have been placed on the road since the first of the year.

A significant feature of this achievement, it was noted, is the fact that Chevrolet in four months time built a greater number of six cylinder cars than any other automobile manufacturers has ever produced in an entire year. This figure would have been even greater, Mr. Grant pointed out, if Chevrolet had been able to take immediate care of the tremendous volume of orders with which the factory has been flooded since the introduction of the new car.

Chevrolet cars are sold here by Farmington Motor Sales.
