

## LETTERS TO THE EDITOR

## ROAD STRAIGHT NORTH

To the Editor:

Another good reason why we should have a good road straight north—if the airport should locate north of town on the 12-Mile road, HOW would we get there? The same as we get to Pontiac now. Back to the Junction, turn left to 12-Mile road, turn left again over two miles further—handy as

Of course, the flying field may not locate on the 12-Mile road. But it brings out the fact that we need a road straight north to accommodate that section and because it is the direct route

from Pontiac to Chicago via Northville, Plymouth, Wayne, Ypsilanti, Ann Arbor, etc., and because it can be built cheaper now than later, that is, after the Baptist Church is built. I honestly believe it is the cheapest and best solution of the 10-Mile proposition. I wish we could have a little get-together meeting and talk it over. These are only a few of the points in favor of it. It would like to hear the points against it if I am wrong. I stand corrected. I will listen to you.

I hate to have a man tell me I'm wrong and then run.

—Henry W. Lee.

Paint is called a preservative, and many painted faces look as if they had been preserved a long time.

## CLARENCEVILLE

## PLAY DAY FOR GIRLS

June Play Day for Oakland County Girl Scouts will be held June 1 on Winer Athletic Field or Pontiac High School gymnasium according to the weather and will be an all-day event. Girl Scouts will gather at 10 o'clock from all over the County to play together for this day.

Oakland was the first car to adopt the fuel pump, now used by 30 manufacturers.

An artist's temperament alone will not make a man out of a bum.

Pretty hard being a kid now. If you play in the streets the automobiles drive you off, and if you play on someone's land, the housewives tell you to go home.

## It costs very little to recondition a MODEL T FORD

THE Ford Motor Company is making a new car, but it is still proud of the Model T. It wants every owner of one of these cars to run it as long as possible at a minimum of trouble and expense.

Because of this policy, and because of the investment that millions of motorists have in Model T cars, the Ford Motor Company will continue to supply parts as long as they are needed by Ford owners.

So that you may get the greatest use from your Model T, we suggest that you take it to the nearest Ford dealer and have him estimate on the cost of any replacement parts that may be necessary.

You will find this the economical thing to do because a small expenditure now will help to prevent costlier repairs later on, increase the value of the car, and give you thousands of miles of additional service.

For a labor charge of only \$2.60 you can have your generator put in first-class condition: A new universal joint will be installed for a labor cost of \$3. Overhauling the carburetor costs \$1.50; steering gear, \$3.50; radiator, \$7.50. A complete overhauling of the rear axle assembly runs between \$5.75 and \$7 for labor. An average price of \$22.50 covers the overhauling of the motor and transmission.

These prices are for labor only because the need and number of new parts depend on the condition of each car. The cost of these parts is low, however, because of the Ford policy of manufacturing and selling at a small margin of profit.

## CAMEL CIGARETTES

WHY CAMELS  
ARE THE BETTER CIGARETTE

Camels contain the choicest tobaccos grown . . . expertly blended for matchless taste and fragrance.

They have a welcome mellowness and mildness that you will find in no other cigarette. Smoke them as often as you like, Camels never tire your taste.

The quality of Camels is never permitted to vary.

Only a superior cigarette could have won and held world leadership for all these years as Camel has done.

You can bank on  
the quality of a cigarette that continues  
to be the biggest  
success in smoking  
history
