A new and modern car designed and created to meet modern conditions

THE minute you see the new Ford you will be delighted with its low, smart lines and beautiful color-harmonies. There, you will say, is a truly modern car.

From the full-nickel radiator shell to the good-looking banjo differential housing, the new Ford is an outstanding example of fine automobile design and engineering.

Triplex shatter-proof glass windshield . . . Alemite chassis lubrication . . . typical Ford reliability, economy and long life.

These are just a few of the reasons why the new Ford is such a really great car—such a good car to own and drive.
