That they may have a little peace, even the best dogs are compelled to snarl occasionally.

WINGED POSTMAN POPULAR

The amount of mail that flies from the nation's capital to all parts of the country is four times as large as it was one year ago. Furthermore, the bulging pouches of mail grow more numerous and bulging every month. In 1928, 50,000 miles a day, across 41 states and into Canada, Mexico and Central America. These figures, given by the Aeronautica Chamber of Commerce, of course represent air ports over the United States which alone has 30,000 miles of airways.

A reduction in the air postal rate from five to two cents has been suggested even though the deficit in the Post Office Department was largely attributed to loss of money on air mail. The reduction has been suggested as a sure means of increasing the air mail business to the point where the government will make it profitable to make contracts with air companies on the basis of space used as is done in the case of railroads. This would mean no loss of revenue to Uncle Sam as well as a nice slice of cake for grateful subjects.

NEW LAW ON PIKE

Fishermen will have to count their grass pike after August 28. On that date the new fish law enacted by the past legislature goes into effect. In the past there has been no limit on the grass or great northern pike, and some fishermen have carried their pike fishing to excess. In fact the concession the government has received a number of complaints from various localities concerning the over-catching of this fish, as many as 60 pike have been reported taken by a fishing party in one day.

Secretly all of us think that our personal wages and profits are a little below normal, while prices are way above normal.
