NEXT FRIDAY IS FARMINGTON DAY AT WAYNE FAIR

Features Priced 'Biggest Error' In History of Northville Event

Everything is in readiness for the opening of the 13th annual fair of the Northville-Wayne Fair Association at Northville, Michigan, on Friday, September 17.

The gates to the ground will be wide open until 12 o'clock the following Saturday night, the Northville Fair being a day free one in this part of the state. The only place where an admission charge is at the grandstand.

Friday is Redford and Farmington Day at the Fair. This is the day of the two communities make it a point to visit the Fair, even if they have visited the fair on other days.

All of the exhibits, the poultry show, the baby show, the midway and the thousand and one other things that go to make up a successful fair are open to the public without charge. The association is giving the free fair a second trial and if it is a success and the grandstand is able to produce a sufficient amount of revenue, the Fair will become a permanent thing.

Never before in the history of the organization has such an effort been put forth to provide a better fair than this year. There is a greater number of exhibits and the entries for the various departments are way ahead of any other year.

There are the horse races, four days of trotting and pacing events for good sized purses as well as special cups presented by Governor Green and other prominent Michigan men.

The horse show and the children's pony contests, with some of the fifty or more entries from boys and girls in this part of the State will be one of the biggest features of the fair. The juvenile riders last year provided a big hit and the early entries for this year are more than doubled.

Then there will be the dedication of the new horse show ring, an ideal show ring for fancy stepping horses.

The baseball tournament will be played on a new diamond laid out by Harry German and Capt. Edward Denniston, two baseball boosters who know baseball. Elmer Smith, who has charge of the tournament, has been successful in signing a number of good teams for the series of ball games.

Fireworks every night, vaudeville afternoon and evening, with exhibition buildings filled with displays, the association believes a 1929 fair will be record breaker.

Orgy of Birthdays

By RING LARDNER To the Editor: Well here it is the open season for parties again and on Monday morning our front yard looks like the claret. I have already a couple of weeks ago had a party for the 30 or 31 of them. The what nats from Detroit parked in line along the road and several passersby thought we must be having a auction of something and come on to make inquiries. I was about ready to get sore when a kid about 13 yrs. old that belonged to one of the parties pointed to our cow and says his book says they have got a cow on the estate.

Well you can't stay very mad when they call your joint a estate and if one of them will pull something like that every Sunday I will try and make no bones about them upstoring the front lawn with bread and sardine cans; but I can't help from wondering what that boy would do if he called the Swape place his dog where they have got a 4 or 500 lb. front and I suppose he would be named it Asia.

Speaking about the cow this time I muste the one we had and bring me one as I have had finally become just a ornament. The new one don't seem to be no special brand and ain't got no family tree or nothing. She is plain black and when we first got her we left it to the kiddies to give her a name and they thought it over all one day and then give her the name Blackie.

Kids will think of the — But I suppose for some reason mother or Blackie don't seem to like her name, at least she acts and all the time and has showed signs of a vengeful spirit. It seems that on a growth of what they call wild garlic which cow could possibly enjoy eating it but Blackie eats it to get even and I will say she eats even. Sometimes she will shut her eyes wide holding the outstaid and pretend you are enjoying the \$100 table out at Madame Gallit's.

A few days of warmth and sunshine certainly made the roses and beautiful when all the flowers and blossoms was out. All told they was in bloom at one time (4) bicenties, 2 crocuses, a 1/2 dozen tulips and the fruit in bushes. The tree which is usually hid behind the garage so as the picnic parties can't enjoy it. Last yr. it yielded pretty near a cord of cherry box full of plums which was a big surprise as well as beautiful. The piece they told us it was a cherry tree.

Annual work started last wk. in the tennis court. The men promise to have it ready by Sept. 15th or they ain't nowhere near as much to do; it is his other yrs. as this winter only 1/2 of it covered in. Personally I ain't in no hurry as I agree with the U. S. tennis assn. that a man can't write and day tennis both and it is a whole lot less trouble to write because when you play tennis you ain't to wear special white shoes and pants and skirt but you can wear a kimono and slippers and in fact some of my best writings has been done entirely bare foot.

Three of the 4 kiddies was born in the spring time so we been having quite a way of birthdays and generally when they's one in sight we ask the hero of same when he would like for presents and most always the reply is a pony or a suit boot or a pair of overhauling size that they ain't no chance of him getting.

But the 22 boy is different and today is his birthday and we asked him a wk. ago what would he like and he says he would like something that would clean the rest of his bicycle. That is the way he has always been and will always be the same way, not wanting nothing and nothing is probably what he will get.

The Miss. decided a while ago that it was about time we was getting a new vehicle to ride the kiddies back and forth to school and back as the one we had been using for that purpose the last 3 or 4 yrs. was getting kind of sullen so we called up the man and told him to bring something around and so we asked him could we trade in our old one and he looked at some kind of swalloved bird but says he would hat it take it over to Fort Washington to get it repaired.

So we was scared to death for a 1/2 day as Fort Washington is 14 miles from here and the bellows was even then the good old season wouldn't never complete the round trip, but she done it all right and the deal was closed and the papers signed and now the kiddies is squawking because all the fun has been took out of their daily trips to and from school.

They always insisted on setting in the back seat of the old car and about 2 days out of every 6 the chin would part in the middle either going or coming and when the driver got to school or home and turned around to let them out they wouldn't be there but would be a mile or 2 up the road in the back 1/2 of the car, laughing at him.

FOUR GRASS FIRES IN WEEK

Four grass fires in the past week have called out the Fire Department of Walled Lake village. On Sunday afternoon, a grass fire on the old Carpenter farm near the Charles Redfield residence had to be fought with chemicals. Only five men were present and the fire, had such a start it was impossible to put it out by beating. Fifty dollars worth of chemical was used to extinguish the blaze.

The department was also called to the Welfare subdivision and to the McClellan residence by grass fires. In order to facilitate the fighting of grass fires and eliminate the necessity of a general alarm by sounding the siren, M. C. Post at the Tuesday meeting of the Exchange Club stated the Ford Garage would be responsible for taking care of the runs for the month of September.

Chief McQuern gave the men in the garage instructions in the operation of the equipment.
