The Lowly Penny Isn't So Lowly After All

One Cent, according to the New York State Committee on Public Utility Information, will run a vacuum cleaner forty minutes, operate a washing machine for fifty minutes, run a sewing machine for three hours, brew five cups of coffee in a percolator, heat a toaster for sixteen slices of toast.

Now try gathering up all the "lowly pennies" that come into your hands and putting them in a savings account at the Peoples State Bank of Farmington, where they will earn four percent interest while you are gathering up more pennies. You'll soon have another demonstration of the fact that the "lowly penny" is not so "lowly" after all.
