YOUTH SERIOUSLY HURT

BY FALL OFF TOBOGGAN

What is hoped and expected to be the last accident of the season occurred at Walled Lake when Wayne Peppler, 2965 Calvert, Detroit, fell off the slide, while riding backward standing up. He suffered a fracture of the right hip, and right knee and fracture of head of tibia.

Peppler had been going down the toboggan slide in various positions with the group he was with and in attempting the backward ride he fell after getting part way down. The slides travel with force and the momentum and height contributed to the seriousness of his injuries.

He was brought to the office of Dr. E. J. Lindsay where his injuries were dressed.
