## CONSERVATION OFFICER AND TRAPPER ARE SHOT

Carrying bullet wounds in his leg, chest and head, Arthur Leitz special conservation officer, will be the state's chief witness against William Sims, Tawas, charged with attempt to kill.

It is claimed that Leitz discovered muskrat traps owned and placed by Sims along Tawas Lake, and that he found muskrats in the traps. While he was there Sims arrived and when he discovered the officer, he shot three times, each charge taking effect.

Despite his wounds, Leitz arrested Sims and paddled him five miles in a boat to the nearest village.

Our idea of an optimist is trying to figure out why his summer garden failed to produce catalog results.

## Camels are for knowing smokers!

It's just too bad if any smoker takes of this information denies himself or herself the pleasure of CAMELS.

New smokers are not always in a position to have a real preference in cigarettes. But when they acquaint themselves with Camels they develop that sense of discrimination that leads to real smoking pleasure. Camels are made so carefully and of so good a blend of choicest cigarette tobaccos that even those with inexperienced smoking taste quickly recognize their superiority. They are for those who appreciate the taste of choice tobaccos, the fragrance of a perfect blend and the soothing mellowness of a really satisfying cigarette.
