EARLY SHOPPING CAMPAIGN TO BE RUN BY THEATERS

Public Playhouses Join in Effort To Prevent Last-Minute Rush

The movies will do their share this year to relieve the tired, aching feet of distracted shoppers, mail carriers and expressmen who annually bear the burden of Christmas shopping activities. Twelve hundred Public theatres by order of Sam Katz, president, will join hands with the newspapers this year in urging the public to buy and mail all gifts as early as possible. Since these theatres play the pictures made by all procuring companies, it is expected that other theatres affiliated with film producers, as well as independent theatres, will follow suit.

Heretofore, only the newspapers have championed the "shop early" idea. The movies, however, through Public alone, add an appeal that will reach 35 million theatre goers weekly. As an inducement to shoppers, nine of the fourteen most extraordinary and exceptional pictures now scheduled for production will be released between now and Christmas and shown in the 200 Public theatres during the pre-holiday season, to spread the shopping rush over four weeks instead of the customary hectic two weeks. Talks of such compelling interest will lure the public into the shopping districts for two hour performances, thus making it easy for the shopping to be done with more leisure.

With these super-attractions luring movie fans to the shopping district, in the various cities and towns, and a seven innuement at each performance urging Christmas shopping to avoid the last minute rush, it is hoped that the weight of the theatre campaign, augmented by the usual local newspaper drive, will bring about a long sought change in conditions.

"Shop early and by degrees," will be the sense of the theatre screen campaign. "Don't postpone everything until the last minute and make yourself a fatigued and worn-out victim of the eleventh hour panic. Do part of your shopping and mailing now, the remainder later and have leisure time between to enjoy a good movie."

The nine big feature pictures to be released as part of the "shop early" campaign include: "The Three Live Ghosts," the all talking ligh sensation of the year.

"Illusion," with Charles (Buddy) Rogers and Nancy Carroll. "The Single Standard," with Greta Garbo and Niles Asther. "The Rainbow Man," an all-talking lyric romance with Eddie Dowling.

"The Dance of Life," with Hal Skelly and Nancy Carroll. "Dark Streets," with Jack McHale.

"Hard To Get," with Dorothy MacCall.

"The Mystery of Dr. Fu Manchu," the most thrilling mystery ever filmed.

FARMINGTON RESIDENTS DEFENDS U OF D STUDENTS

Attorney Ben C. Hughes' of Farmington appeared in court in Lansing Monday on behalf of a

number of University of Detroit students charged with disorderly conduct following disturbances after the Detroit-M. S. C. football game Saturday.

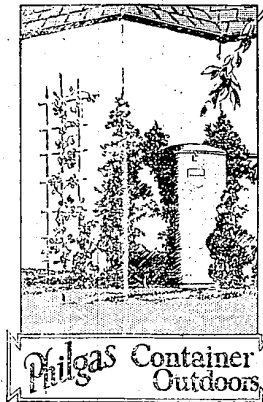

Mr. Hughes, who attended the

game, remained over for the trials. Commenting on the incidents, he said that students of both institutions were equally responsible for the trouble.

A meeting of unusual interest to Masons of this vicinity will occur next Monday evening when the Detroit Police team will come to Farmington to confer work in the third degree.

FORD FINANCING CO. LOWERS COST TO TIME PURCHASERS OF CARS

Officials of the Universal Credit Company, which is associated with Ford Motor Company for the exclusive purpose of financing purchasers of Ford products on a time basis, issued the following information to Olin Russell, Farmington Ford dealer:

The reduction in financing costs announced on November 1 by the Universal Credit Company, were made in conformance with Ford policy to contribute towards the continuation of good business throughout the country, and in contemplation of lower money costs to them as a result of the general softening of money rates.

The reduction amounts to from 8 to 15 per cent of previous financing costs on a general average over previous costs for the same model car, and appreciable savings are possible in all territories, depending upon the amount of the unpaid balance, the number of months the transaction is to run and the amount of the reduction in the price of the particular Ford car purchased.

"Universal Credit Company is a specialized financial institution created to provide uniform and authorized time payment plans at their cost for the purchase of Ford products on an installment basis.

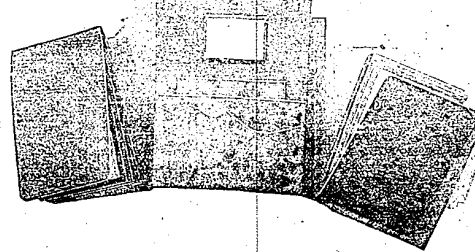

"The purpose is to reduce the cost of credit to the individual who buys on time, commensurate with sound business policies. The cost of credit is just as vital as the cost of any of the material that goes into the building of the automobile. It is in every sense a commodity which becomes a part of the completed article before it is ultimately sold to the public.

"Thus, the Universal Credit Company's new low finance charges are equivalent to a further reduction on the Model A car and other Ford products."

Education is great. We know youngsters in this community who couldn't throw a forward pass four years ago.
