Mr. and Mrs. Frank Hofmann Their daughter and son-in-last day over \$7,000,000.

A Smile Or A Frown?

When the Christmas bills pour in, will you meet them with a carefree smile or a foreboding frown? Can you pay "C. O. D." or must you look forward to weeks of drudging sacrifice to make up a deficit caused by Christmas spending?

MEET CHRISTMAS 1930 WITH A SMILE

Settle the matter for 1930 by joining our Christmas Savings Club. Members pay as little as 10c a week or as much as \$20 a week and draw out a few weeks before

\$12.50 to \$1000 *

This is the modern way to dispose of the Christmas spending problem. It is both sensible and scientific to set aside the required amount as you earn it-a fraction of the total each week or each month as income is received.

Try it this year. Come in and find out all about the Christmas Club. Or write or phone as best suits your convenience.
