Special business meeting called for Wednesday, May 28 at 8:00 o'clock. Every member urged to be present.

St. Paul's Evangelical Lutheran Church, Clarenceville  
(at Switzer Road)  
Rev. Paul Graupner, Pastor

No Sunday School and no service next Sunday at St. Paul's Church.

WHY NOT? Read this announcement of unusual interest:  
Ninety-two congregations and missions, representing over 40,000 Lutheran members in the Detroit area, have been organized to unite in a mass-service to commemorate the quadricentennial of the Augsburg Confession at the Michigan State Fair grounds, Sunday, May 26.

A large circle of congregations has been invited to join us in this great celebration.

An elaborate program of mass-choir, children's chorus, and special features has been prepared.

In the morning service, at 10 a. m., the chief speakers will be the president of the Missouri Synod, Dr. F. Pfotenhauer (German), and the Rev. L. Linn of Grace Church, New York City (English).

The noonday program at the grandstand begins at 1:30.

The afternoon service in the Coliseum at 3:30; the address by the Rev. W. H. T. Dau, D. D., Valparaiso, Ind.

Now remember, this is not a celebration exclusively for Lutherans, but for everybody, especially a splendid opportunity to find out why the Lutherans take the stand they do take. Come, Look, Listen.

St. Martin's Episcopal Mission  
Lenore Ave., 3 blocks south of Grand River, Five Points

Morning service, 10:30.  
Sunday School, 11:30.

## Michigan Has More Phones Than S. America

Michigan, with 700,000 telephones, has a greater number than South America, Africa or Australia and the islands of the sea, and more than half as many as the entire continent of Asia.

Detroit, served by nearly 354,000 telephones, has 12,000 more than the city of Paris and a third more than all of Africa. Paris has 11.7 telephones per hundred population, and Detroit, 20.1.

There are 163 telephones in the United States per 100 population. The statistics show that there were 32,712,284 telephones in the world, of which 20,894,323 were in North America and 19,341,295 in the United States. Fifty-nine per cent of the world's telephones are in the United States, and 28 per cent in Europe, where Germany leads, followed by Great Britain and France.

Africa has the fewest telephones of the six continents, or 219,362. Telephones in the world increased 1,726,908 during 1928, about half of which were gained in this country.

Nineteen countries in Europe, four in North America, three in South America and one district in northern Africa, or 2 foreign lands, can be reached from any Bell System telephone.

## BUS SERVICE TO PONTIAC AND FARMINGTON STARTS

Bus service from Walled Lake to Pontiac and Farmington will start Saturday with two hour service beginning at noon on Saturday and Sunday, Frank Capri, owner of the line, stated this week.

Two buses, both of large capacity, will be used and will leave from the Walled Lake Park. A definite schedule will be announced later. Early morning buses will be operated for office and factory workers if there is a demand for this service. Mr. Capri intends to operate the year round.

## INQUEST CALLED INTO DEATH ON WATER SLED

An inquest was held Thursday morning 9:00 o'clock in the death of Elizabeth Colby, 8-year-old Detroit girl, who was killed when struck by a water sled at the New Casino Pavilion bath house last Sunday afternoon. According to the report, only one sled was being used and this only occasionally. The girl went over and sat on the bottom end of the slide just as Leslie Twohey, a Detroit fireman, started down the sled. He jumped off the coaster before it hit her, the empty sled striking her, breaking her neck. She was killed instantly. Dr. E. J. Lindsay, stated, who was called. He called Coroner O. C. Farmer who took charge of the body. The girl was the daughter of Mr. and Mrs. William Colby of John R. street Detroit and was at the lake with a neighbor.

The best work is done by men whose consciences won't let them do inferior work.

# As clean as SUNLIGHT

• electric heat  
for cooking

• ALL THE SMOKE AND  
SOOT IS REMOVED IN  
THE POWER HOUSE

Glowing, hot as fire, with none of the objections of fire, electric heat comes to your kitchen as clean as sunlight. There is no burning fuel in the stove itself. All the dirt and soot are removed in the power house. There is no combustion in the kitchen. Therefore, there can be no products of combustion, no fumes or gases to form deposits on walls and curtains—or to tarnish silver. Blackened, soot-laden pots and pans become a thing of the past. There are no flames, no matches!

ELECTROCHEF, remarkable new electric stove, gives you all the things you've dreamed of—a clean kitchen, a cool kitchen, a healthful atmosphere, safety, more tasty cooking, greater convenience, less work. But it is not expensive. With ordinary care in the control of heat, cooking with ELECTROCHEF costs but a fraction more than cooking with the cheapest fuels.

BALANCE \$6 PER MONTH  
SMALL CARRYING CHARGE  
CASH PRICE \$105 INSTALLED

Count these advantages that ELECTROCHEF brings: electric heat, as clean as sunlight; an all-white porcelain range, as easily cleaned as a piece of china; cooking speed, with focused radiant heat—snap the switch and start to cook!

Electric cooking retains a delicious flavor in foods—meats and vegetables cook to melting tenderness in their own juices—with all their natural flavors sealed in. To cook vegetables, the addition of very little water is necessary. Consistent baking of light, fine-grained cakes and flaky pastries with ELECTROCHEF will delight you! See this remarkable stove today at any Detroit Edison office.
