PRODUCES A RIPE  
TOMATO JUNE 12

Clarence Bicking First To Deliver A Ripe One To Office Of Newspaper

In conjunction with a wager made last winter with William Flummerfelt of Wyandotte, Clarence Bicking of Farmington delivered to the Gateway Chronicle of Wyandotte last Thursday, June 12, a ripe tomato picked from his own garden.

This was the first specimen delivered to the newspaper this season, although the Chronicle received a telephone message on Saturday, June 7, to the effect that Mr. Flummerfelt was having for lunch one from his garden. Mr. Bicking has over a half a dozen fine plants in his garden with tomatoes that are ready to ripen. The plants were started

in the Culver Wood greenhouses. Several friends and neighbors including Farmington's city clerk, N. H. Power, witnessed the picking of the ripe fruit and just to prove they are still producing Mr. Bicking has given several more away including a lovely ripe one reposing on the editor's desk at the Farmington Enterprise.

Speaker At Honor Banquet Lauds Farmington For Achievement At Mt. Pleasant

Lavish praise was bestowed on Farmington High School, its students and faculty by Superintendent John H. Harris of Pontiac Public Schools at the annual honor banquet sponsored by the Parent-Teacher Association last Thursday evening. Farmington's achievement in winning three first places at the scholarship contests at Mt. Pleasant in May, Superintendent Harris declared, was an accomplishment far above the average, and indicated the high standing of Farmington in scholastic work. Superintendent Harris defended the diversified curriculum of the modern school as desirable in the present day.

President Elmer V. Palmer of the P. T. A. introduced Principal A. R. Crawford, toastmaster. The following students gave talks in a very creditable manner representing various activities: Eleanor Perry, girls' teams; John Lapham, boys' teams; Helen Westfall, student council; George Mairs, scholastic group. Over two hundred attended the banquet. Sixty-eight students were honor guests.

Children Have Picnic—  
Teachers Have Hunt

Boys and girls of the Isaac Bond school on Orchard Lake road went on a picnic last Friday. But strangely, their teachers did not go with them. The teachers enjoyed a long drive over a large part of Oakland County. Or at least they had one.

The story, as told around the section, is that the children, as per arrangements, joyfully piled up to the school bus on Friday morning. Away went the bus, bound for Bloomfield Park.

The teachers, Mrs. McCrumb and Miss Leet, remained behind for a while, probably busy closing up affairs of the year. Some time later they started out for the scene of the picnic.

Just how or where they missed the children has not been explained, but in their search they are said to have covered a good deal of the southern part of the County, and finally to have given it up as a hopeless task, as the hours wore on and the sun passed its meridian, with afternoon well on the way.
