Warning Is Issued

On 'Fake' Ford Stock

A warning against fraudulent brokers and promoters who are offering stock in foreign Ford motor companies has been issued today by the Better Business Bureau and affiliated offices through out the United States and Canada.

Reliance on the good will and integrity of the Ford name, thousands of persons throughout the country have purchased stocks which either turned out to be spurious or were not delivered at all, the warning said. There is no way of estimating the financial loss involved.

"Stocks of the Ford Motor Company of England, Ltd. and the Ford Motor Company of France are listed on the New York Curb market and the prices at which they are currently selling are printed in the financial pages of the newspapers. Nevertheless many persons are being led by unscrupulous brokers to pay far in excess of the market prices.

"The majority of stock brokers,

of course, are honest. Our warning is directed solely against the fraudulent concerns that carry on their fleecing of the public under the guise of reputable concerns. Anyone contemplating the purchase of stocks should first consult his local Better Business Bureau."

Sign-Posts

IMAGINE YOURSELF on an unfamiliar highway at night in the country. You want to go to Allison. You come to a forked road. No signs! Which way? You turn left and come to a cross-road. No signs. You turn right. You come to a town. It proves to be Liberty. You go back to the fork and turn left. A mile or so farther on you come to another cross-road. A sign pointing right says "Allison three miles."

But for that sign-post you might have traveled miles—spent hours, and come short of your destination.

Imagine yourself in need of hosiery, clothing, breakfast foods or anything else, and this newspaper without advertisements!

Advertisements are sign-posts. They are information. They save you from wandering aimlessly from store to store. They keep you advised of the newest products; of the latest values. They save you time, and put greater buying power in your dollars. They assure you of quality and service in merchandise, for only honest goods honestly advertised can stand the spotlight of publicity.
