BUSINESS EDUCATION

Gradually the authorities in our educational matters are coming to appre Gradually the authorities in our educational matters are coming to appace ciate the value of a thorough business education. It is now seen that a knowledge of business methods and customs is of more practical value to the average young person than a full course in the deal languages or eview higher mattematics. The graduates of the well known Detroit Business "University, which for more than 60 years has been giving a splendil trainings of business persuits have been active in advancing the claims of business education and of this particular school. This has much to do with the fact that this institution is everywhere regarded as the pioneer and the par ex-cellence today among business training schools.

THF I ITERARY CLUB IMPORTANT TO THE FARMERS

The Milk Question is Bound to Bring on a Big Fight Between the Dealers and Farmers seeting of the Mutual Dairy association is called for Farming-ton next week Saturday. It will be held in the evening in the Grace House and it is likely will be well

attended for the milk question proves to be a real live issue just In Detroit a concerted movement is being made to reduce the price of milk to the consumer from nine to eight cents and it behooves the producers to look carefully after their own interests in the fight that is about to be waged.

If there is a reduction to be made in the city retail price it should certainly not come out of the price paid to the farmers who roduce the milk. As a matter of fact the producers

of milk should, at all times, receive not less than half of the price which the consumers pay and whenever it is otherwise there is something wrong with the system of handling or the middle-man gets more than his proper share. Only organization can the farmers protect themselves

Smith Returned to Congress It is with a great deal of satis action that we print the letter from Congressman Smith this week. When this paper went to press last week the city dailies had him beat en, but when the returns were finally all secured it was found that

ally all secured it was found that he was not only elected, but was chosen by a very handsome ma-jority. This is a grand endorse-ment of Mr. Smith in this year of political uncertainty and one which he seems to fully appreciate.

The excellent work that he has lone in congress is responsible for his great popularity throughout the district and is the cause for ap-plying the rule of "Let well enough lone'' in his case.

From Our Congressman Pontiac, Mich., Nov. 12, '12 To the Citizens of the Sixth Con gressional District:

I want to express my thanks for the splendid vote which I received November 5th. Through the loyal and devoted efforts of my friends, from the latest returns, I neve won out by more than 3,000

against Mr. Cummings and also Mr. Kellogg, and in view of the fact that the third party was made up of at least 80 per cent Republians my friends think this is the largest vote which I have ever reeived as a candidate for congre so I have reason to feel especially

grateful, as I do. I shall continue to serve you with whatever ability I, possess.

Sincerely yours, SAMUEL W. SMITH. A sale of village lots is on at Redford and is already assuming

proportions that bid fair to rival Royal Oak's experience of the pas Although the sale proper begins ext Sunday, when it is expected that the heavy advertising being done in /Detroit will bring out a big growd, over \$5000 worth of lots have been sold since the day

before election by C. E. Ramsey the local representative. They were mostly purchased by local people who were wise enough to met in on the ground floor." Miss Gillis, of the Enterprise

office, went down Monday and purchased a lot and was offered \$50 for her bargain before she got away from town. Instead of sell ing she later purchased two more

nodoo Number and a Heavy Rain Did Not Prevent the Ladles from Meeting

The Ladies' Literary club Wednesday afternoon with Mrs Nellie, Dickerson. In spite of a downpouring rain thirteen ladles showed their allegiance to their club by braving the elements and they were well rewarded for their effort as the day's program was a

splendid one. Mrs. T. H. McGee's paper, "Pliny's Discovery of Glass," dis-closed the fact that Pliny made no discovery after all, as the art of glass making was discovered by Egyptians, but reached a bigh state of perfection under the Italians in the beautiful Venetian glass.

Mrs. Zayda Wilber's "Venice, Milan and Verona," was doubly interesting from the fact that much of it was taken from a diary compiled during Mrs. Wilber's trip abroad. Pictures of scenes and places were also shown. Mrs. Jessie Green gave a splen did review of the "Last Days of Pompeii," which was thoroughly enjoyed and appreciated by the members.

The next meeting will be held Nov. 20th with Mrs. Flora Henlryx

The club has been invited to attend "Reciprocity Day" at the Northville Woman's club Nov. 15 It is hoped that all members will avail themselves of the privilege of attending this meetibg.

Oakland Towuship Reward Road Oakland township has practically completed the two miles of state road from the Orion township line easterly through by the Braid farms.

For ten weeks a force of county prisoners have been employed on us work, supplementing the team work of the local farmers, with the result of the completion of a nice stretch of reward road at a reason able expenditure.

Some eighteen hundred dollars of local bounty was raised last spring for this work. In addition the state will pay \$1,000 reward while the township of Oakland voted \$1,500 toward the improve ment.
