**NEW FORD SEDAN****\$600**

(F.O.B. Detroit. Plus freight and delivery. Bumpers and spare tire extra at low cost.)

In the past two years many new Fords have been driven 50,000, 75,000 and even 100,000 miles. Everywhere the car has made an unusual record for reliability and economy.

Ford owners have found, as you will find, that the low cost of operation and up-keep is even more important than the low first cost of the car. This saving frequently amounts to hundreds of dollars in twenty or thirty thousand miles.

Talk with Ford owners. Better still, let us show you what it can do in traffic, on steep hills and on the open road. Then you will know, from your own experience, that it brings you everything you want or need in a motor car at an unusually low price.
