"Cooking with my ELECTROCHEE" electric range isn't a bit expensive—All my friends are surprised to learn how little it costs! "One reason why my ELECTROCHEE is so economical is the set of ultra-aluminum cooking utensils that come with the range. These utensils have black surfaces which speed up cooking remarkably, they make cooking one-third faster, and of course require less electricity than would otherwise be needed." (ELECTROCHEE'S Cash Price, including 7-piece set of utensils, is \$105 installed, \$10 down, \$6 per month.) *A study of 500 homes showed that the cooking cost with the ELECTROCHEE averages 64c a person per month THE DETROIT EDISON CO.
