Mr. and Mrs. Clarence Billing, Mr. and Mrs. William Laforge, Mr. and Mrs. Ernest Monette spent Saturday evening at the home of Mr. and Mrs. Gunn in Hazel Park.

**NIAGARA BREAK CAUSE MYSTERY "M" MAN SAYS**

Explaining the cause of the fall of a large section of the rim of the American side of Niagara Falls may puzzle geologists since in the past the recession of the American Falls has been slow and regular, states Professor William H. Hobbs, head of the Department of Geology in the University of Michigan.

"This break, characterized as the largest in the history of the Falls, and said to cover an area of 200 by 100 feet, seems to be the result of unsuspected washing out of the softer under layers of rock, for it cannot be accounted for by the usual erosive effect of stones churned up in the water," Professor Hobbs said. "It is surprising to the geologist, since falls of rock have been much more common on the Canadian side, the average recession of the American cataract being in the past only about one inch a year, due to the small amount of water flowing over the falls."

**OF 132 BANDED DUCKS 41 REPORTED KILLED**

Lansing.—Prior to the opening of the duck season, last fall, 132 wild black ducks and mallards were banded by operatives of the game division of the Conservation Department. Since that time 41 of the banded birds, about 31 per cent, have been shot and reported to the Department. Twenty-nine of the ducks were killed by Michigan hunters, 10 of these ducks shot near the site where they were banded; 6 were killed in Wisconsin; 2 in Indiana, and 1 each in Ohio, Minnesota, Illinois and Iowa.

As it is probable that some of these ducks may go much farther south and as many of the southern states have seasons which extend into January, the chances are that others will be killed and possibly reported.

**BIG CIRCUS READY FOR FARMERS WEEK**

East Lansing.—The annual Farmers Week circus, which last year entertained 6,000 people, is scheduled for Thursday night, February 5, and the ring master this year promises bigger and better acts which culminate with a contest for a world's record in horse pulling.

One of the features is a relay race on horseback in which one team represents the county agricultural agents and the other the College staff. The College furnishes the horses and, to insure that none of the animals will be injured, good durable specimens of horseflesh are to be used and the riders will have to take their own chances on getting into and out of the saddles.

**WINS FELLOWSHIP**

Ann Arbor, Mich.—The General Motor Research Fellowship for Michigan for 1930, involving four years of study at Johns Hopkins University and an annual sum of \$1,000, was won from a large field of competitors by Arthur L. Glazebrook, junior in the University of Michigan Chemical Engineering Department, it has been announced by Professor Moses L. Gomburg, head of the Chemistry Department at Michigan. The Fellowships are designed for the development of prospective leaders in the field of chemistry, and are awarded on a basis of scholastic record and personal qualities.

**When Sickness Hits You**

The annoying thing about sickness is that you never know when it comes. None of us constantly guards against it but it is always wise, to be prepared.

A savings account relieves the mind from worry and aids recovery. If you were sick tomorrow you would feel much better about it if you knew that money matters were taken care of.

A Savings Account provides this comfort—gives you something to fall back on. Start one now as insurance and if you don't have to use it you'll be delighted to see how fast it will accumulate at 4%.

**Long Distance is Fast, Convenient and LOW IN COST**

Long distance telephoning has three features which make it attractive to everyone.

**It is fast.** In a very few seconds, usually, you can be talking with your party; even calls to distant points usually are put through while you hold the line.

**It is convenient.** You need not go to any trouble—just pick up your telephone and give the name of the city or town and the telephone number you are calling to the long distance operator. If you do not know the number, ask information.

**It is low in cost.** You can telephone 100 miles for less than a cent a mile, and longer distances for even less per mile.
