

Life Is A Game of Cards

When you're in love
It's hearts.
When you're engaged
It's diamonds.
When you're married
It's clubs.
When you're dead
It's spades.

Take a Week, or a Week-End,
and Enjoy Michigan Winter Sports

Our state provides unexcelled facilities for the enjoyment of outdoor winter sports. It is not necessary to seek them outside of Michigan.

Tobogganing... skating and ice-boating on thousands of lakes... hockey... skiing... hunting... fishing through the ice... old-fashioned sleigh rides under starlit evening skies... every section of the state offers zealous winter pleasures.

Why not make up a party of friends and enjoy a week, or a week-end, of exhilarating sport in one of Michigan's many hospitable communities?

Long Distance telephone service reaches every part of the state, enabling you to make reservations in advance, and providing a quick and convenient means of keeping in touch with home and office while away. The cost is surprisingly low.

For any article of service you require, refer to the Classified Telephone Directory. The Yellow Pages tell you "WHERE TO BUY IT"

Too many tourists in a restful place will make it anything but that.

The new Ford is an economical car to own and drive

Low first cost, low cost of operation and up-keep, and low yearly depreciation mean a distinct saving to every purchaser

THE NEW FORD is a splendid car to own and drive because of its attractive lines and colors, safety, comfort, speed, reliability and long life.

There are, in addition, three other features of importance to every far-seeing automobile owner... low first cost, low cost of operation and up-keep, and low yearly depreciation.

During the life of the car, the day-by-day economy of owning a Ford will amount to considerably more than the saving on the first cost. You save when you buy the Ford and you save every mile you drive.

The reasons for this economy are simplicity of design, high quality of materials and care in manufacturing and assembling. Many vital parts are made to limits of one one-thousandth of an inch. Some to three ten-thousandths of an inch. Throughout, the new Ford is an outstanding example of fine craftsmanship in automobile engineering.

The more you see of the new Ford—the more you talk to Ford owners and experienced mechanics—the more certain you become of this fact. . . . It brings you everything you want or need in a motor car at an unusually low price.
