A Mother

A little mother who thot the world was good
Despite the bad
A little mother whose portion might be small
But shared with all she had
A little mother despite her weariness and pain
Who yet could smile
A little mother who watched no matter what the task
And knew it was worth while
A little mother who radiated cheer, despite
The trials that she bore
Who shouldered all that life had given her
And asked for nothing more
A mother whose heart was all pure gold
Her soul has gone above
We gave her all she asked of us
And that was love
Her hands that were weary with the tasks
Which made them creased
We must weep not at their sweet repose
—She sleeps in peace.

With Miss Alma Weston at the piano, at eight o'clock the wedding party started down the stairway. Miss Inez Weston, maid of honor, leading, paused at the stairs and sang "I Love You Truly". She was dressed in green chiffon carried pink roses.

POTATOES GROW BEST IF PLANTED CLOSELY

East Lansing—Close spacing of seed pieces in planting potatoes will reduce the percentage of hollow and over-size potatoes and will increase the total yield in seasons of normal rainfall, is the statement made by the farm crops department at Michigan State College after years of testing the effects of planting distances.

The use of plenty of seed planted 12 to 18 inches apart in the row is one of the means that the College department recommends for improving the quality of Michigan potatoes, which have been discriminated against in some of the terminal markets. Consumers do not give repeat orders for table stock potatoes which show a high percentage of hollow heart.
