"Radiant reflectors FOCUS the heat on the cooking utensils"

"No wonder my new ELECTROCHEF electric range costs so little to operate! Polished radiant reflectors FOCUS the heat on the cooking utensils. The heat cannot escape into the kitchen air—all of it is used for cooking. Three different heat intensities—high, medium and low—provide just the right heat for every purpose, without waste. In the oven, double air-space insulation prevents heat loss. I used to think electric cooking was expensive until I bought my ELECTROCHEF!"

*A study of one thousand families using the ELECTROCHEF electric range showed a cooking cost of less than one cent a meal a person.

HAS YOUR KITCHEN STOVE THESE ELECTROCHEF FEATURES?
