ASHLEY & DUSTIN STEAMER LINE
Foot of First Street Detroit, Michigan

"ELECTROCHEF'S two-temperature ACCURACY

bakes this delicious lemon meringue pie!"

CASH PRICE \$105 INSTALLED, including all necessary wiring \$10 down, \$6 a month small carrying charge. Sold under these conditions in Detroit Edison customers only.

A study of one thousand families using ELECTROCHEF electric range showed a cooking cost of

LESS THAN 1¢ PER HOUR

LEMON meringue pie is difficult to bake successfully. The pastry shell requires a comparatively high heat, and the delicately browned meringue a much lower heat. To get both temperatures equally well with the same oven demands extremely accurate heat control. That is where my Electrochef electric oven proves its superiority.

"My Electrochef electric range makes possible exact temperature control—either high or low. Mirror-like inner walls distribute a gentle heat evenly throughout the oven. There is no intense dry heat to scorch pastry and make baking difficult. The accurate Electrochef oven control maintains uniform heat from start to finish. It's simply the best of the modern range!"

Has your kitchen range this Electrochef feature?
