## FAREWELL GESTURE BY CHURCH GIVEN COLLEGE STUDENTS

Speaker Of Evening Built Up Hypothetical University Of Own Choosing

The Going-Away-To-College banquet given by the Young People's club of the Farmington Methodist Episcopal church last Monday night was attended by a group of 60 young people.

The dinner was planned by Effie Segar and Howard McCracken served ably in the capacity of toastmaster.

Rev. Floyd Charles Johnson and Superintendent John Dalrymple of the Farmington schools gave well wishes to the student guests of the evening. Musical numbers were furnished by Marvel and Elaine Auten and by Miss Thelma Garlick and Alice Parker.

Miss Emily Butterfield gave the main address. She built up a hypothetical university, the university of Farmington and selected teachers of her own choice. This university would be known by its special courses. Courses in laughter, courtesy, tact, prophecy and enthusiasm would be among its special features.

Every one enjoyed the address which was followed by an hour of games directed by Harmon Boice.

Remember the good old days when they used to adjourn politics between seasons?

**Beautifying the Practical**  
Every so often I feel it my special mission in life to protest against the general ugliness of our common household appliances. Why on earth we should have a charcoal heating-burner in the living room and a hideous yellow-handled red-labeled broom in the kitchen, I don't see. Why should the tea-cart in the dining room be lovely in look and the ironing-board in the laundry be "as plain as an old maid's face," as the old saying was many years ago.

Recently I have been trying to educate some of the manufacturers of household tools, implements and furniture by writing to them and suggesting amusing decorative handles, say coats of paint or enamel, and perhaps a bit of really good designing in the shape of the article itself. If they only knew it, women would buy their wares just twice as fast if they were beautified by a deft blue dust-pan, an ironing-board with the legs painted sage green and buff, or a carpet sweeper of orange and black. A set of kitchen forks and dish mops with blue handles to match the blue-tiled linoleum would be irresistible to most housewives.

Well, they'll do it some day, and then we shall have beautiful refrigerators as well as beautiful highboys, attractive gas stoves as well as lo-

able open fireplaces. Meanwhile, we must do the best we can by beautifying our practical household conveniences ourselves. Get a few cans of bright enamel, carrying out the color plan of your kitchen and dining-room, possibly, and make your prosaic tools lovely to look at and fun to work with. Brighten up the ironing board standstill, paint up the step-ladder, doll up the broom and brush handles, decorate the carpet sweeper. Paint the plain kitchen table, decorate the plain kitchen chairs. Use blue and white and yellow bowls to mix things in.

There is no place in the modern kitchen, gay with crisp curtains, rows of flowers on the sill, and rows of pretty plates on the wall, for the unadorned and ugly tools of common household service. If the makers will not beautify them, we must do it ourselves.

## FOODS IN SEASON

During the warm days when hot foods are not appealing to the palate a dish like the following will be enjoyed:

**Peas and Nut Loaf.**—Add three tablespoons of butter to five sliced potatoes, a little salt and pepper and one-third of a cupful of hot milk. Beat with a fork until creamy and pack into a slightly buttered pan. Set the pan into hot water and let stand in a moderate oven until well heated. Turn onto a hot platter, sprinkle with one-third of a cupful of finely minced pecan meats, pour round a white sauce and garnish with parsley.

**Hare Mousse.**—Dissolve one tablespoonful of gelatin in one-half cupful of hot water and add two cupfuls of chopped cold-boiled ham which has been pounded in a mortar, season with one teaspoonful of mustard and a few grains of cayenne. Add one-half cupful of heavy cream beaten until stiff and turn into a mold which has been dipped into cold water. Chill, remove from the mold and garnish with parsley.

**Tomato and Celery Salad.**—Take one can of tomatoes, cook five minutes, then force through a strainer. Add two and one-half tablespoonsful of gelatin soaked in half a cupful of cold water for fifteen minutes, one teaspoonful each of sugar and salt, and one-third cupful of celery cut in thin slices. Pour into individual molds and chill. Serve on lettuce garnished with curled celery and watercress.

**Sautéed Lamb Fillets.**—Take two pounds of lamb from the fore quarter. Wipe, remove bone and cut the meat into one inch strips, then flatten with a cleaver. Arrange on a platter and pour over a marinade made by mixing three tablespoonfuls of olive oil, three tablespoonfuls of vinegar, two-thirds of a teaspoonful of salt, one-half onion finely chopped and one teaspoonful of parsley. Cover and let stand overnight. When ready to serve, sauté in butter.

## MORNING BLAZE DESTROYS FORD AND HEN HOUSE

Fire Is Believed To Have Been Started By Chicken Thieves

Fire believed to have been set by chicken thieves, Monday morning destroyed a garage and chicken coop owned by Hamp Rouzee, one mile south of the cut-off, and a Ford automobile and 11 chickens owned by George Rouzee, who lives on the property. The total loss is set at more than \$400, which was not covered by insurance.

George Rouzee, who discovered the fire, said that a month ago he had been troubled with chicken thieves and had reported it to sheriff's officers. He asserted that after the fire he found that there were eleven chickens unaccounted for, either dead or alive, which leads him to believe that thieves were at work in the coop at the time the blaze started. A quantity of hay stored in the garage was set by a match, Rouzee believes.

The Farmington Fire department was called and succeeded in saving a house adjacent to the garage.

## Two Grass Fires Over Week-End Add To List

Two grass fires last week end added to the already large list of fires of such nature experienced in and around Farmington this summer. The first alarm was turned in Saturday afternoon from Power road where a grass fire was soon put out by the department.

Sunday afternoon the township truck was called to Middlebelt and Seven Mile roads where another grass fire had become out of control but was soon stamped out by the department.

## The FORD TRUCK

Is Built To Stay On The Job

For road construction or for numberless speedy trips from store to customer, Ford trucks offer the strength and endurance that are needed . . . along with reliability, low first cost, and a marked degree of economy.

They have a wide range of speed and power, with their 4-cylinder, 40-horse-power engines, and 4-speed transmission. Their three-quarter floating spiral bevel gear rear axles adapt them for heavy loads and hard use. Sturdy frames, with five strong cross-members, add to their strength and long life. And torque tube drive adds to their reliability and low cost of maintenance by relieving rear springs of all but their normal function of absorbing shocks.

There are more than thirty standard Ford bodies, for every kind of hauling, in any business. Come in and let us demonstrate the type of truck designed for your business needs.
