

To The People Of Farmington Township

Inasmuch as I have been unable, in the past few weeks, to do any extensive calling upon the people of our Township, I wish to take this opportunity of stating the reasons which have prevented such a canvass on my part.

In recent years the greatly increased demands upon the Supervisor's time, if he is to perform his duties conscientiously, have made it almost impossible for him to engage in any other activity, even for a few days. Co-operation with the County officials now requires almost two full days each week, and response to many calls of various kinds, in addition to looking after the best interests of the Township, makes a full day's work every day. I have felt and I am sure most of my fellow-citizens will agree with me, that with such pressing demands upon his time for Township matters, the Supervisor would not be justified, or true to his trust, if he set aside his Township duties for even a few days in order to further his own candidacy for re-election.

Therefore I am asking my friends throughout the Township to accept in place of a personal call this assurance that I remember and greatly appreciate your splendid support in the past, and that I will do my utmost to go on deserving your confidence in me.

ARTHUR P. COE,
Supervisor
