Firestone

Again Reduces Prices

Buy now!

Don't drive on worn, smooth tires when you can have new Firestone Tires at these low prices.

Never before could you buy such remarkable values.

You get extra strength, extra safety, extra service with every Firestone Tire because of these extra Firestone construction features.

Gum-Dipping, the Firestone patented extra process that makes the cord-body tougher and stronger.

Two Extra Cord Plies under the Tread, a patented Firestone construction that gives added protection against punctures and blow-outs and stronger bond between tread and cord body.

Tougher, thicker non-skid tread that gives greater non-skid protection and longer non-skid wear.

1931—the year in which values counted most — was for Firestone a year of great accomplishment. Because of Firestone's unequalled position in buying raw materials — rubber and cotton — efficient factories and economical distribution, they gave car owners the greatest values in their history.

Drive in today. Equip your car with Firestone Gum-Dipped Tires and enjoy their extra safety and satisfaction at the lowest prices in history.
