"CLEAN!"
... it's the cleanest stove I've ever used"

IMAGINE a stove so clean you can wipe it with a handkerchief... and find the handkerchief spotless! A china dish isn't any easier to keep clean than the gleaming porcelain of my new Electrochef. Simply wiping with a damp cloth restores the original luster to the smooth white surfaces. All corners are rounded, inside and out. There are no cracks or crevices anywhere to collect dirt.

The polished metal reflectors on the cooking table can be lifted out for cleaning, and placed right in the dish pan, if desired. Scouring does not injure the bright chrome-plate finish. The Electrochef oven may be 'stripped' completely, leaving only the round-corneted inner shell to be washed out. Electrochef is a joy to the woman who likes to keep things clean. I'm certainly proud of my modern, snow-white range!
