

STARS OF "42nd STREET", COMING SOON

"42nd Street," a dramatic spectacle of the American theatre, as wide as show business in scope, which Warner Bros. presents at the Great Lakes Theatre, Sunday, Monday and Tuesday, carries a

scintillating all-star cast of eleven stars, besides featured actors of note, a picked chorus of 150 beautiful girls and hundreds of extras.

The cast is headed by Warner Baxter, the star of "Six Hours To Live," "Cisco Kid," "Daddy Long Legs," and many other hits, and Bebe Daniels, of "Silver Dollar," "Rio Rita" and "Dixiana" fame. Ruby Keeler, wife of Al Jolson, and the Ziegfeld star of "Show Girl," makes her picture bow as the ingenue of "42nd Street." George Brent, Una Merkel, Guy Kibbee, Ned Sparks, Dick Powell, Ginger Rogers and Allen Jenkins, all well known both on stage and screen, completed the star cast. Other important featured players include such well known names as Henry B. Walthall, Edward J. Nugent, Harry Akst, Clarence Nordstrom, Robert McWade, Geo. E. Stone, and Al Dubin and Harry Warren, the song writers, who both wrote the song hits for the picture and played the roles of the song writers for the production around which "42nd Street" revolves.

The chorus of 150 girls was selected by Busby Berkeley, the famous Broadway director, who created and staged the dance numbers and ensembles. "42nd Street" is a show within a show, the dramatic story of life backstage in a musical comedy troupe, from the day the stars and chorus are chosen to the opening night. It was based on the novel by Bradford Ropes and adapted to the screen by Rian James and James Seymour. It was directed by Lloyd Bacon.

FUL-VUE

The Smart "High-Up" Effect in Glasses

Up to now, the temples or "bows" of glasses prevented the eyes from being seen at the sides. Moreover, they obstructed vision from the sides. New Ful-vue glasses, with temples moved up high where they belong, reveal the eyes. That's one reason why Ful-vue looks modern and smart. To be in style, wear new Ful-vue glasses.

A great thing has occurred amongst us. We have made a complete turn-around, and at last America's face is toward the future.

Three years---1929 to 1932---we Americans looked backward. All our old financial and political machinery was geared to pull us out of the depression by the same door through which we entered. We thought it simply a case of going back the way we came. It failed. We now realize that the way out is forward---through it.

Thanks for that belongs to President Roosevelt. Inauguration Day he turned the Ship of State around. Having observed the failure of sincere efforts to haul us back the way we came, he designed a new method---new political and financial machinery---to pull us out the way we are going---forward. He is clearing international obstacles out of the way; he does not stand in awe of tariffs. The people begin to feel that he does not take advice from the "interests"; that he has courage and loyalty to work for one supreme interest only---the welfare of the American people. That is a big achievement for two months in office.

And now we all look to what is coming; we grow less and less concerned with what is behind. We are looking for a hand-hold on the haul rope. Every man wants to do what he can, and all he can.

The best thing I can do for the Country is to create industry by building good motor cars. If I knew anything better to do, I would do it. Industry must be my contribution. Motor cars must face ahead to the future, like everything else. They are so much a part of the Nation's daily life that if they lag behind they hold the Country back.
