### KELVINATOR CORPORATION CALLS ADDITIONAL WORKERS BY TELEPHONE

"With us, telephoning is the first method used in calling men back to work. On every application card is a space for a telephone number," reports an official of Kelvinator Corporation. "Right now we have more people on the payroll than at any time during the 19 years we have been in business. Many of those re-employed were called to the job by telephone."

Other things being equal, applicants or former employees within easy reach by telephone usually are called first when workers are needed.
