• SERVICE •

Our Service Management and Mechanics are all G.M. factory trained, are using genuine G.M. replacement parts, and are also using the latest factory methods, which means better and faster service for you the customer.

• STOCK AVAILABILITY •

This might be a problem some places, but not at Bruce Craig Pontiac; we have most models, colors and equipment ready to go. Why drive across town when Bruce Craig can give you the car and the price you're looking for.

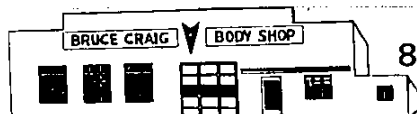

• COLLISION •

We have a large, complete bump shop that does double AA - 1st class work. Why not get your crumpled fender estimated by us, and get the job done right. (NO BOND USED)

• FINANCING •

In this area we can be of much help and offer greater convenience. With all bank rates.
