A COMPANY, THIRTY YEARS OLD

Last Friday the Ford Motor Company completed 30 years of automobile making.

It is also my fortieth year at the same job. I made my first engine in 1893, and it still runs. This is the engine that won the Selden Patent Suit—which took the motor car out of the exclusive class, and opened the automobile industry to hundreds of manufacturers who started during the last 30 years.

Some of the men who began with me that June day in 1903, are working here yet. All of the principles we laid down then, are still operative; we find that they have great survival value for the future. To date they have produced and sold over 21,000,000 Ford cars.

Although we created the automobile market we have never thought it was good for anyone to monopolize it. We have always believed that before business could be good for one, it must be good for all. Our discoveries and improvements have always been open to other manufacturers without patent restrictions.

Of course, there is one thing we cannot share—everyone must get it for himself—and that is experience. Money could duplicate our buildings and machines, but it cannot duplicate 40 years of experience. And it is experience that makes a motor car.

But the past does not especially concern me; it has all been a preparation for the future. For myself, I feel that I have just been gathering the tools to do something worthwhile, and that my real task is still ahead.

Great changes are upon the world. False ideas of every kind are vanishing in the general upheaval. Those who built truly on principle will survive—their service will carry over. Business integrity and commodity honor will be fully justified. And newer and better ways of living will appear.

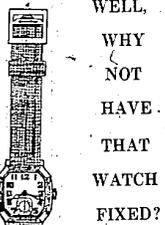

That is the outlook for this young, thirty-year old Company of ours.

Henry Ford

Mr. and Mrs. Howard McCracken and Mrs. Floyd Johnson left Tuesday morning on a fishing trip to Lawlun where they will spend a few days.

## COMMISSIONERS' PROCEEDINGS

Special meeting of the City Commission of Farmington held June 19, 1933.

Called to order by Mayor Warner at 4:35 p. m.

Commissioners present: Oldenburg, Gildemeister, Hamlin and Staman.

Mayor Warner stated the purpose of the meeting was to take action in regard to the Peddler's Ordinance now in force in our city. A suit has been started in the Circuit court at Pontiac to test its validity.

Judge Schulte and Paul Paré spoke to the commission in regard to the matter and cited several court decisions bearing on the question. The matter will come before the commission at their next regular meeting, July 3.

Motion made by Hamlin, seconded by Gildemeister that the City pay not to exceed \$25.00 for material for benches in the Town Hall Park. Carried.

Motion made by Gildemeister, seconded by Hamlin that the city spend not to exceed \$15.00 to return all indigents to their respective cities or townships provided they have not lived in Farmington one year. Carried.

Adjourned 5:30 p. m.  
N. H. POWER,  
City Clerk.

**Dodge Park Closed**  
By Commission Order

Dodge Park at Walled Lake is among a group of state parks which will be closed by the Conservation Commission, beginning July 1. The parks are being closed because of a cut in the sun, annually appropriated for their maintenance. In addition to the 22 parks contained in the order, it is planned that eight more will be closed at a later date because of the diversion of \$10,000 from the State Athletic Fund, usually appropriated to the parks, to another purpose. This would mean the closing of 30 of the 53 state parks.

Farmington Hardware Co. carries complete line of household supplies, large necessities.

Mr. and Mrs. Harold McCracken of Detroit spent Sunday with Mr. and Mrs. H. N. McCracken.

Miss Diana Beebe of Pontiac is spending this week with Mrs. H. N. McCracken.

... the electric "CHEF-ETTE" is ideal for small apartments!

The compactness of this handy new appliance makes it just the thing for small kitchens and small apartments. It resembles a glorified frying pan or chafin dish, and it broils steaks or chops with a flavor surprisingly delicious. To broil, you simply place the steak or chops on the grill rack, and put the heat unit upside down, on top. The meat is broiled from above, and the juices, as they drip down, are caught in the roaster below. Broiling with the "Chef-Ette" is easier than oven broiling!

The "Chef-Ette" has countless other practical uses. It roasts even the cheaper cuts of meat, on the Dutch Oven principle, to incomparable tenderness and tastiness. It toasts bread or sandwiches which will not fit into the conventional type of toaster. Used as a hotplate, it heats coffee. CHEF-ETTE operates from any convenience outlet.
