If the Shoe Fits
By **BERNIE ZIVOV**
Is a change of shoes advisable?
Yes, change shoes and hosiery at least once a day. You will find it is very refreshing and gives you a definite lift. Shoes are designed for different purposes. Use the appropriate shoe for the purpose. If you stand for long periods on your job, wear comfortable shoes with low heels. The shoes worn by nurses are an example of a good functional shoe.
Take the greatest care in fitting your shoes. Do not depend on size or number alone, but have them fitted with the correct last or shape every time you buy new shoes. Improper shoes can deform the feet with bunions, corns and callouses and can contribute to more serious ailments.
Changing shoes for work, play or relaxation can give a lift to your spirits and contribute to your good health and morale.

Lions Begin Seal Mailing
FARMINGTON
The Farmington Township Lions Club held its annual meeting recently to staff "sight and blind aid seals" into envelopes for mailing to all Farmington residents.
Money collected from the seals will support these four main projects: Leader Dogs for the blind; a protective care home for the aged blind; Nardin Park Braille transcribers; and an eye bank storing corneas for transplants at Wayne State University and the University of Michigan.
Walter Kesslering, club president, says the club appreciates the support given the Lions by Farmington residents in the past and hopes for continued support and contributions this year.
Dr. Seymour Rosen, a Lion and optometrist, says this project is very important in providing financial support for visual examination and visual care for Farmington residents who need financial assistance.
