# MILLIONS OF PEOPLE HAVE ASKED . . .

## What, exactly, does Knee-Action do?

*the answer is*

# CHEVROLET'S KNEE-ACTION RIDE

## Doubles

the pleasure of motoring

**Chevrolet prices have been reduced as much as \$50**

Drive it only 5 miles and you'll never be satisfied with any other low-priced car

The best way to prove that Chevrolet's Knee-Action actually makes motoring twice as pleasant as before is to drive the new Chevrolet over all kinds of roads. You will find that the continuous jars you used to get even on smooth pavements are ended. The steering wheel is free of vibration. Back seat passengers are comfortable and relaxed. You can maintain higher speeds over rough roads that used to slow you down. You will find, in fact, that probably for the first time in your experience, every foot of every mile is equally enjoyable. Perhaps that explains why so many people are buying and recommending this extremely low-priced car.
