Tom's Tavern
FarmingtonSpills Under Racing Horses
Are Never As Dangerous As
Blow-outs

says SONNY WORKMAN, Famous Jockey

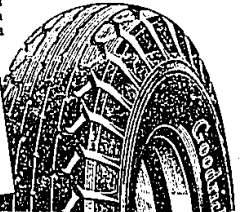

NOW NEW KIND OF TIRE PROTECTS
YOU AGAINST HIGH-SPEED BLOW-OUTS

• "This business of riding race horses isn't all thrills and glory," SONNY WORKMAN says. "You've got to expect plenty of bumps. I've crashed into fences and been trampled under pounding hooves. But my worst spill wasn't as bad as that blow-out I had. I was driving to Miami, when the tire blew out. My car swerved and shot off the road. And I still thank my lucky stars I came through it alive. But I'm taking no more chances with blow-outs—I've equipped my car with Goodrich Safety Silvertowns."

An Amazing Tire Invention

Take our word for it, gambling on tires is mighty risky business. Because of the heat generated inside the tire by today's high speeds you never can tell when BANG! a blow-out may throw your car completely out of control.

Before anything like this happens to YOU let us equip your car with a set of Goodrich Safety Silvertowns, the only tires in the world built with Life-Saver Golden Ply. This exclusive Goodrich invention resists heat—keeps rubber and fabric from separating—keeps blisters from forming and you get real protection against high-speed blow-outs where you need it most—inside the tire! Remember, Silvertowns cost no more than other standard tires and give months of extra mileage. See us about a set today.
