THE V-8 ENGINE IS ALWAYS IN

Style

The V-type engine is the kind you find in the cars of people to whom cost means little and style means much.

When the Ford Motor Company introduced this engine to the low-price field, it made one of its greatest contributions to modern, luxurious motoring with economy. But progress did not stop there. Styling, appointments and every other feature of the new Ford were made to match the quality of the V-8 engine.

Without Ford resources and experience this would not have been possible in a

car at so low a price. But you can easily convince yourself that it has been done. You are urged to accept the cordial invitation of your nearest Ford dealer to see and drive the new Ford V-8 for 1936. Your acceptance implies no obligation.

510 P. O. B. Detroit, Standard and accessory group, including bumper and spare tire, extra. All body types have Safety Glass throughout at no additional cost. Complete, economical Universal Credit Company terms.
