A Wonder in The Hay Field

This is the Farmall-12 Tractor with Quick-Attachable 7-foot mower operated by the power take-off. It is a pleasure to watch this outfit at work, and turning—it makes a perfectly square turn without any backing whatever.

McCormick-Deering Farmall F-12 Tractor

When you get around to haying time you can get all the power you need for every operation in the McCormick-Deering Farmall 12 Tractor. Put a 7-foot Quick-Attachable mower on this tractor—it can be put on in about 2 minutes—and you will be able to cut from 20 to 30 acres a day.

And the Farmall 12 will rake the hay—either with a sweep rake or a side-delivery rake—ted it, haul it to the barn, and put it into the mow if you want it to.

The low operating cost of the Farmall 12 recommends it to every hay grower. Come in and let us tell you about it.
